Proclamations Nos. 29 and 39 of 1901, 59 of 1905, and 18 of 1914.

Dead cattle, horses, asses, and mules; fresh offal, hoofs, horns, bones, horse-hair, hairs and wool; straw, hay, litter; raw leather, untanned hides, fresh hides; manures, not pressed or manufactured and shipped as cargo,—coming from the Indian and Persian Gulf ports, and live cattle from the Persian Gulf ports.

Proclamations Nos. 61 of 1905, 29 of 1907, and 32 of 1913.

Cattle dead or alive, horses, asses and mules; fresh offal, hoofs, horns, bones, horse-hair, hair, raw silk, wool; straw including straw used as packing material, hay, litter; raw leather, untanned and fresh hides; milk, fresh butter, cheese, and all dairy produce; rags and drills, except rags packed under hydraulic pressure conveyed in bales as merchandize; manures and other fertilizers of animal or vegetable origin; old or second hand clothes, and old or new gunny bags; soil of every description, and ballast of earth and mud-sand,—from Natal, Basutoland, Cape Colony, Delagoa Bay, and Beira.

Proclamation No. 67 of 1905

Bovines, litter, and manure from all places situated in the province of Tulear, Fianarantsoa and Farafanga and in the military circles of the Mahafaly and of Port Dauphin, in Madagascar.

Proclamation No. 29 of 1908

Dogs, cats, and lemurs from Madagascar.

Proclamation No. 22 of 1909

Cattle—not including horses, asses and mules—or any carcase, as well as straw, hay fodder, litter or raw manure—from Ceylon.

Ordinance No. 5 of 1911

Matches made with white phosphorus.

Proclamation No. 52 of 1913

Living insects from any country including the Dependencies.

Proclamation No. 81 of 1913

Grape-vine cuttings and plants, except when covered by a certificate from the Board of Agriculture (or other competent authority) of the country of origin that the vines have not been exposed to the infection of phylloxera for the six weeks prior to the date of shipment; earth, and leaf and garden mould; sugar canes or cuttings thereof, live plants of all sorts including roots, tubers, cuttings, and grafts in any description of earth or soil; dung or animal droppings (except guano), forage: timber with the bark on.

Proclamation No. 8 of 1914

Fowls, ducks, guinea-fowls, turkeys and other birds from Madagascar, Ceylon and Tropical African Ports.

Ordinance No. 14 of 1908

The shell of the *tortue de mer* or green turtle known as *Kashouane*, and turtle oil cannot be imported from any Dependency except under a special permit from the Collector of Customs.

Proclamations Nos. 29 of 1904, 59 of 1905, and 18 of 1914

Animals, dead or alive, except cattle, horses, asses, and mules, can be imported from the Indian and Persian Gulf ports only with the permission of the Governor, and dogs with the permission of the Collector of Customs after examination by the Veterinary Surgeon.

Articles not enumerated in the prohibition list under the Proclamations mentioned above may be imported from the said ports after disinfection, if considered necessary, by the Sanitary Authorities.

Cattle, alive, from Indian ports shall be allowed to be landed on production of a certificate from the Civil Veterinary Department of India stating :—

(*a*) That each animal comes from a District which has been free from infectious diseases for six months previous to the shipment.

(*b*) That each animal has, before shipment, been inoculated with Rinderpest anti-serum. if obtained from a district where Rinderpest has ever occurred, or shipped from a port at which Rinderpest exists at time of shipment.

(*c*) That each animal has been subjected to the tuberculin test with a favourable result

(*d*) That each animal was, at time of embarkation, free from contagious or infectious diseases and from animal parasites.

The cattle shall on landing be quarantined under Veterinary supervision for a period of one month in a place and under conditions approved by the Director of the Health Department, should he consider such a course desirable.

Proclamations Nos. 61 of 1905 and 29 of 1907.

Same restrictions as above enumerated regarding importations from Natal, Basutoland, Cape Colony, Delagoa Bay, and Beira. Old books and newspapers from these places can only be landed with the approval of the Governor.

Proclamation No. 32 of 1913.

Horses, asses or mules from South Africa shall be allowed to be landed on production of a certificate from a Veterinary Surgeon at the port of embarkation stating that each animal has, within 10 days of the shipment, been subjected to the mallein test with a favourable result, and that the animal is free from contagious or infectious disease. The animal must besides have passed before embarkation, or must undergo on arrival, a sufficient number of days in quarantine to make a total of fourteen days,—the quarantine on arrival to be carried out in a place and under conditions approved by the Director of the Health Department. No animal shall be allowed to land until it is proved to the satisfaction of the Director that it has not suffered from equine piroplasmis (biliary fever).

Proclamation No. 81 of 1913.

Sugar canes or cuttings thereof, living plants or bulbils of Agave or Fourcrœa, tea plants, may not be introduced unless written permission has previously been obtained from the Director of Agriculture.

Sugar canes or cuttings thereof; live plants of all sorts, including roots, tubers, cuttings, grafts and buds; fresh citrus fruits, except from the Dependencies, will be inspected at the port of entry.

Proclamation No. 55 *of* 1915.

The importation into Mauritius from any country or place whatever, including the Dependencies of Mauritius, of serpents and mongooses, except when introduced for theatrical purposes with the permission of the Governor, and of all living insects, except such as may be required by Government for scientific purposes, is absolutely prohibited.

Proclamation No 57 *of* 1919

The importation into Mauritius, except under a special licence to be granted by the Governor, of the following dyestuffs, when produced or manufactured outside the British Empire, is prohibited :—

(*a*) All derivatives of coal tar generally known as intermediate products capable of being used or adapted for use as dyestuffs, or of being modified or further manufactured into dyestuffs.

(*b*) All direct cotton colours, all union colours, all acid colours, all chrome and mordant colours, all alizarine colours, all basic colours, all sulphide colours, all vat colours (including synthetic indigo), all oil, spirit, and wax colours, all lake colours, and any other synthetic colours, dyes, stains, colour acids, colour lakes, leuco acids, leuco bases, whether in paste, powder, solution or any other form.

☞ *If any goods are imported or brought into Mauritius contrary to any of the prohibitions or restrictions mentioned in the above table the same shall be forfeited.*

PROHIBITIONS OUTWARDS.

Proclamation No. 20 *of* 1914

The exportation of the following birds and of the plumage and skins thereof is absolutely prohibited :—Pingo, bengali, serin du pays, tourterelle du pays, petite hirondelle, grosse hirondelle, oiseau blanc, oiseau manioc, merle de Maurice, coq de bois, cuisinier, oiseau banane, cateau de Maurice, pigeons des Mares, martin or mina, mangeur de poules, paille-en-queue, paille-en-queue de terre ou à bec jaune, poule sultane.

„ 350 „ „ 700 „	...	90
„ 700 „ „ 1,000 „	...	100
„ 1,000 „ „ 1,500 „	...	120
„ 1,500 „ „ and upwards	...	140

KING'S WAREHOUSE RENT

Government Notice No. 9 *of* 20*th January* 1912

The undermentioned rates of Warehouse rent are levied on goods landed by sufferance under articles 21 and 23 of Ordinance No. 28 of 1892, or by Bill of Sight to be lodged in the King's Warehouse and also on articles and packages so lodged by order of the Collector of Customs, including Passengers' baggage temporarily deposited in the King's Warehouse if not removed within three days.

	Not exceeding 15 days	Above 15 days and not exceeding one month	Thereafter per month or portion of a month
	Rs. c.	Rs. c.	Rs. c.
Not exceeding 250 kilos	.. 25	... 50	... 50
Above 250 kilos & not exceeding 500.	... 50	1 ...	1 ...
„ 500 „ 750.	... 75	1 50	1 50
„ 750 „ 1,000.	1 ...	2 ...	2 ...
And for every 1,000 kilos or part thereof in excess of the first 1,000 kilos ...	1 ...	2 ...	2 ...

or the equivalent by measurement, as the Collector of Customs shall decide, the ton of 1,000 kilos. being reckoned as equal to 40 cubic feet.

The weight or measurement is calculated on the basis of the charge for freight by the importing vessel, or by actual weight or measurement as the Collector of Customs may determine.

The rent is calculated in respect of the whole consignment of each class of goods, and commences on the day on which the first portion of such consignment is landed. Provided that where there has been undue delay in the landing of the several lots comprising a consignment not arising by default of the consignee the Collector of Customs may remit the rent payable for such period not exceeding 15 days in all from the date of landing of the first lot as may seem to him reasonable.

BOAT LICENCES.

VESSELS ENTERING THE HARBOUR FOR COALING ONLY.

	Rs.	c.
Pilotage inwards and mooring, per ton of register ...		04
Unmooring and pilotage outwards, per ton of register		04
Light dues, per ton of register		09
Anchorage, per ton of register		08

The above anchorage dues shall cover a period of 24 hours of daylight for coaling, and there shall be charged an additional due of R. 0.05 per ton register for every subsequent 12 hours or part of 12 hours daylight provided that the total charge for anchorage dues shall in no case exceed the maximum charge, under Ordinance No. 21 of 1897, of 23 cents of a rupee per ton of register.

VESSELS ABANDONED.

All vessels abandoned in the Harbour and not broken up within three months, or sold or not broken up or fitted for sea within the same period from the date of sale, shall be subject to a Harbour fee of two cents per ton of register per month; provided that the said fee shall in no case be less than ten Rupees a month.

VESSELS USED AS CARGO HULKS OR RECEIVING SHIPS.

All vessels used as Cargo Hulks or receiving ships in the Harbour shall be duly licensed as such and, while so used, shall pay a Harbour fee of four cents per month per ton of register without prejudice to any Harbour dues that may be claimable upon their leaving the Harbour.

The Governor may, from time to time, make regulations in regard to the control and management of such vessels, and by such regulations add to, alter or revoke any existing regulations.

The regulations so made shall be laid on the table of the Council of Government.

Vessels in distress are charged Pilotage and other Harbour Dues.

EXEMPTIONS

1. No Pilotage or Anchorage dues shall be charged on the following vessels :

(*a*) British or Foreign Men-of-War and Transports, or vessels belonging to the Government of Mauritius.

(*b*) Vessels breaking hulk at the outer anchorage, and discharging cargo of the extent of not more than 25 tons ; or landing not more than 5 horses, mules, donkeys, or 20 sheep, pigs or goats.

(*c*) Vessels touching at Port Louis without entering the Harbour.

2. No Pilotage dues shall be charged on Vessels under 100 tons on entering or leaving unless the Commander or Master has requested to be supplied with a pilot.

LOCAL LIGHT DUES

Particulars	*Charges* Rs. c.
All Vessels, excepting Coasters employed on the coast of Mauritius, entering the Harbour, or discharging or shipping Cargo or Immigrants in the roadstead, shall pay 9 cents per ton as Mauritius light dues, which shall not be levied more than twice within 12 months on any one vessel...	09

LIGHT DUES FOR THE GREAT BASSES LIGHTHOUSE, THE LITTLE BASSES LIGHTHOUSE AND THE MINICOY LIGHTHOUSE

The dues in respect of the Great Basses Lighthouse and the Little Basses Lighthouse shall be three-sixteenths of one penny per ton, and in respect of the Minicoy Lighthouse, one sixteenth of one penny per ton, of the burthen of every ship on every voyage in which she passes or derives benefit from the said lights respectively, subject in each case to a reduction of 25 *per centum*.

Animals and Vehicles exempt from Direct Taxes

1 The following animals and vehicles shall be exempt, from direct taxes, viz.: (*i*)—[*a*]—Animals and vehicles, except steam lorries and traction engines and trucks, attached thereto, employed by their proprietor exclusively for agricultural purposes on any estate of which he is the owner or occupier, or upon any public road or other road bordering or intersecting such estate; [*b*] Steam lorries and traction engines and trucks attached thereto, employed by their proprietor on any estate of which he is the owner or occupier; and any such steam lorries or traction engines and trucks attached thereto sent unloaded to any workshop for the purpose of being repaired, or returning therefrom unloaded afterwards. (*ii*) Animals and vehicles, except steam lorries and traction engines and trucks attached thereto, employed by their proprietor exclusively for conveying, from one property to another, or both of which he is the owner or occupier, or from the property of another person to his own property, or from his own property to the property of another person, or from or to any Railway Station to or from his own property, cane or cane trash, to be used in the manufacture of sugar, or aloe leaves, for the manufacture of fibre or rope, or manure, or any substance to be manufactured as manure. (*iii*) Horses allowed by the King's Regulations in His Majesty's Service. (*iv*) Vehicles kept by any carriage maker, cart-wright; motor-cars, motor-cycles kept exclusively in any shop or store for sale or repair, and which shall not be let for hire. (*v*) Horses and mules kept by any horse dealer for sale, or by any veterinary surgeon for treatment, and which shall not be let for hire. (*vi*) One vehicle and one horse or other animal bearing or drawing burthen, kept and used by any clergyman or minister of religion. (*vii*) One vehicle

Animals and Vehicles exempt from Direct Taxes.—*Continued*)

and one horse or other animal bearing and drawing burthen; kept and used by Police Officers, Inland Revenue Officers or Guards with the authority of the Inspector General of Police or of the Receiver General respectively, in and for the performance of their duties.

2. The vehicles mentioned in sub-paragraphs (*i*) and (*ii*) of paragraph 1 shall not bear any number but shall have the owner's name painted or branded upon them in the manner provided in the Regulations, otherwise such vehicles shall be held not to come within the exemptions provided in this article.

SCHEDULE H of Ordinance No. 32 of 1915 is repealed and replaced by the following

SCHEDULE H.—DEALER IN BILLS AND LOANS

(*a*) On each and every sum of Rs. 20,000 a licence duty of Rs. 30 p.a.

Provided that for any transactions made on or after the 1st November the licence duty shall be Rs. 20 for every Rs. 20,000.

Provided further that for any transactions made on or after the 1st March, the licence duty shall be Rs. 10 for every Rs. 20,000.

(*b*) An additional duty of R. 1.50, R. 1 or 50 cents, as the case may be, shall be levied on each and every additional Rs. 1,000 or fractional part thereof for transactions made within the periods above specified respectively.

The licence duty shall be payable on every sum or sums lent whether such sum or sums have been lent to one or more persons and shall fall due on the date on which the amount aggregates Rs. 20,000 or more.

The licence duty shall be paid during the whole term for which such sum or sums aggregating Rs. 20,000 or more remain outstanding or due.

(*Notice published in Government Gazette No.* 14 *of* 1*st March,* 1913.)

For the first two batches	not exceeding Rs. 90
For each additional batch	Rs. 22.50.

FEES AND DUTIES LEVIED AT THE DEPARTMENT OF AGRICULTURE
Government Notification No. 49 of 13th March 1915

A.—LABORATORY

I. *Analysis of Soils.*

(Quantity to send :—3 kilos.)	Rs.	c.
1. Determination of total Nitrogen	3	...
2. Determination of constituents soluble in strong Acid(per dosage)	3	...
3. Determination of Phosphoric Anhydride, Potash and Lime soluble in strong Acid	7	...
4. Determination of Nitrogen and Phosphoric Anhydride, Potash and Lime soluble in strong acid...	10	00
5. Determination of probably available Phosphoric Anhydride, Potash or Lime	3	...
6. Determination of probably available PhosphoricAnhydride, Potash and Lime	7	50
7. Determination of Nitrogen, and probably available Phosphoric Anhydride, Potash and Lime ...	10	...
8. Mechanical analysis and determination of Carbonate of Lime	10	...
9. General chemical analysis (Items 4 and 6)	15	...
10. General chemical and mechanical analysis (Items 4, 6 and 8)	30	...
11. Complete chemical and mechanical analysis	40	...

FEES AND DUTIES LEVIED AT THE DEPARTMENT OF AGRICULTURE—(*Continued*)

		Rs.	c.
	II. *Analysis of Manures.* Quantities to send :—Guanos and Fertilizers : ½ kilo. Scums and Ashes : 1 kilo. (Fumiers and Composts—5 kilos.)		
12.	Determination of nitric, ammoniacal or organic Nitrogen	2	...
13.	Determination of Phosphate or Potash per dosage	3	...
14.	Complete commercial analysis of Fumiers and Composts	10	...
15.	Complete chemical analysis of Guanos and Fertilizers	15	...
	III. *Analysis of Limes* (Quantity to send—1 kilo.)		
16.	Determination of Lime as oxide or hydrate	2	...
17.	Determination of total Lime and Carbonate	5	...
18.	Agricultural analysis (Items 16 and 17)	6	...
19.	Complete chemical analysis	15	...
	IV. *Analysis of Plants.* (Quantity to send : Green—5 kilos. Dry—2 kilos.)		
20.	Chemical analysis (per dosage)	3	...
21.	Complete chemical analysis—mineral and organic composition	25	...
	V. *Analysis of Water.* (Quantity to send—5 litres)		
22.	Analysis as to fitness for agricultural and manufacturing purposes	25	...
23.	Complete chemical analysis—dissolved salts and gases	50	...
	VI. *Analysis of Substances connected with Sugar Industry.* (Quantities to send shewn in brackets)		
24.	Canes—sucrose and glucose (12 canes)	2	...
25.	Megass—sugar and moisture (5 kilos.)	3	...
26.	„ —fibre (5 kilos.)	2	...
27.	Sugar—single polarisation (½ kilo.)	2	...
28.	Sugar—Duplicate(recommended in case of disputed tests) (½ „)	3	...
29.	Molasses—single polarisation (3 litres)	2	...
29bis.	Molasses—Fine grain	1	...
30.	Molasses—Wash or Cattle Foods—determination of total sugar	4	...
31.	Wash—determination of total sugar, acidity and alcohol (5 litres)	6	...
32.	Rum—determination of Alcohol (1 litre)	3	...
33.	Sugar and Sugar Products—complete chemical analysis of— (2 kilos.)	20	...
34.	Scums—determination of sugar and moisture (1 kilo.)	2	...
35.	Sulphur—determination of purity (½ „)	2	...
36.	Double Superphosphate—determination of Phosphoric Anhydride soluble in water (½ „)	3	...
37.	Double Superphosphate—complete chemical analysis (½ „)	10	...
	VII. *Analysis of Cattle Foods* (Quantity to send—2 kilos.)		
38.	Determination of Moisture, Ash, Oil or Nitrogen	2	...
39.	„ „ „ and „	6	...
40.	Complete chemical analysis	10	...
	VIII. *Analysis of Fungicides and Insecticides* (Quantity to send—½ kilo.)		
41.	Arsenicals—determination of total arsenic or arsenious oxides	3	...
42.	Arsenicals—determination of water-soluble arsenic or arsenious oxides	3	...
42bis.	Arsenites—determination of, in Dipping solution	0	50
43.	Other Fungicides and Insecticides—per dosage	3	...
44.	Complete chemical analysis	25	..
	IX. *Analysis of Milk* (Quantity to send—1 litre)		
45.	Determination of Water, Ash, Fat, Albuminoids, or sugar (per dosage)	2	...
46.	Complete analysis	9	...
	X. *Miscellaneous Analyses*		
47.	Miscellaneous chemical examinations, each	3	...
	XI. *Veterinary Examinations and Treatments*		
48.	Microscopical examination of Blood Smears and Secretions	2	...
49.	Bacteriological Investigation for Surra, Piroplasmosis, Filariasis, etc.	5	...
50.	Treatment of Equides for Surra (per animal)	100	...
	XII. *Courses of Instruction*		
51.	Instruction in polariscope examination of Sugar, etc.(5 lessons of 2 hours each)	25	...
52.	Instruction in general analyses of Sugar etc., (10 lessons of 2 hours each)	50	...
53.	Instruction in qualitative analyses in relation to Agricultural Chemistry(10 lessons of 2 hours each)	25	...
54.	Instruction in quantitative analyses in relation to Agricultural Chemistry(10 lessons of 3 hours each)	50	...

B.—Experiment Stations and Gardens

Rates gazetted from time to time

		Rs.	c.
Sale of economic & ornamental plants:			
each:	from		02
	to	4	00

Government Notice gazetted on 12th January 1915

(a) Services of animals:		
Bulls, per service	3	...
Rams and he-goats, per service	1	...
(b) Sale of produce:		
Young rams, each	50	...
Cockerels, 6 months old each	*7	50
Pullets	*5	...
Eggs, per sitting of 12	4	...

FEES AND DUTIES LEVIED AT THE FORESTS DEPARTMENT

Ord. No. 2 of 1869.—Stamp duties on agreement to clean River Reserves by the riparian owner	...	15
Ord. No. 43 of 1914.—Permit to convert into timber, trees of indigenous species	1	...
do. Permit to sell timber of indigenous species	1	...
Ord. No. 7 of 1905.—Permit to remove sand from unleased Pas Géométriques	1	...
do. Permit to cut grass from unleased Crown Lands	...	15

RAILWAY TARIFFS

Regulated by Bye Laws issued under the Railway Traffic Ordinance No. 8 of 1864.

Parcels Rates.

	R.	c.
For parcels of all sorts, except those specially mentioned, weighing 5 kilos and under		15
For parcels of all sorts, except those specially mentioned, weighing 5 kilos to 10 kilos		20
For parcels of all sorts, except those specially mentioned, weighing 10 kilos to 20 kilos		25
For parcels of all sorts, except those specially mentioned, weighing 20 kilos to 30 kilos		30
For parcels of all sorts, except those specially mentioned, weighing 30 kilos to 35 kilos		35
For parcels of all sorts, except those specially mentioned, weighing 35 kilos to 40 kilos		40

and 5 cents for each additional 5 kilos or fraction of 5 kilos.

Ice is carried at the following rates:

For 20 kilos and under, R. 0.10 cs., and for each additional 10 kilos or fraction of 10 kilos, 5 cents.

Parcels of fresh meat, fish, oysters, crabs, fowls, eggs, fruits, fresh vegetables and flowers, only when consigned to traders, pay the following rates:

	R.	c.
For parcels weighing 5 kilos and under		15
" " 5 kilos to 10 kilos		20
" " 10 " " 15 "		30
" " 15 " " 20 "		40
" " 20 " " 25 "		50

from 25 to 50 kilos, 10 cents for each 5 kilos or fraction of 5 kilos; above 50 kilos, 5 cents extra for each 5 kilos or fraction of 5 kilos, otherwise there shall be charged the rates for ordinary parcels.

Bread, Biscuits and Butter.

The rates for the conveyance of parcels of bread, biscuits and butter will be temporarily as follows:—

	R.	c.
For parcels weighing 5 kilos and under		08
" over 5 kilos up to 10 kilos		10
" " 10 " " 20 "		13
" " 20 " " 30 "		15
" " 30 " " 35 "		18
" " 35 " " 40 "		20

and .02 cents for each additional 5 kilos or fraction of 5 kilos.

Persons holding Passengers season tickets are entitled to purchase monthly "parcels season tickets" at 4 Rupees per mensem. Holders of such tickets are entitled to the conveyance by rail daily of one or more parcels of bazar or clothing weighing together not more than 15 kilos,—either the Station of departure or the Station of destination of the parcels being the same for all parcels.

If the weight of the parcels exceeds 15 kilos, the excess weight will be charged for at ordinary parcels rates.

Tins of petroleum oil properly packed pay 50 cents per tin.

Parcels for which 25 cents porterage is paid are delivered in Port Louis only.

The Governor may authorize the conveyance by rail of parcels, by special agreement at reduced rates or otherwise for Merchants, Shopkeepers and other persons who have a large quantity of parcels to send every day.

Animals

The following tolls are charged for the conveyance of animals:

All such animals, such as goats, sheep, pigs, monkeys, dogs and other animals which can be carried in the dog-box: per head per mile, 4 cents. For puppies, small dogs and cats carried in hampers or baskets, ordinary parcels rates shall be charged according to weight.

Calves, donkeys, deer, etc.: per head per mile, 12 cents.

Horses, mules, horned cattle conveyed: per head per mile, 25 cents. In no case shall a lesser charge than 10 Rupees be made for the conveyance of each animal abovementioned if a horse-box is employed, or Rs. 5 if a truck is used.

Attendants travelling in horse-boxes or trucks will be charged 3rd class fares.

Animals may however be insured on payment of 1½% of the declared value, the minimum insurance premium for each animal being Rs. 2.50.

* Pure-bred birds bred in the Colony:

RAILWAY TARIFFS.—(*Continued*)

CORPSES

Corpses are transported in ordinary Goods trucks at the rate of 75 cents per mile with 1 Rupee for loading and unloading. If a Brake Van is used, an extra charge of 5 Rupees will be made. If the 2nd class funeral car is used, an extra charge of 10 Rupees will be made. Persons taking seats in the car will pay second class fares. If the 1st class funeral car is used, the extra charge will be Rs. 15 and persons travelling in it will pay 1st class fares.

The body of a child not exceeding one year of age may be conveyed in a reserved compartment at the rate of 40 cents per mile without any charge for loading and unloading.

CARRIAGES

For the conveyance of each carriage not exceeding in weight 1,000 kilos, a toll of 50 cents per mile, and a further toll of 10 cents per mile for every additional 250 kilos or fraction of 250 kilos in the weight of the said carriage. There shall moreover be charged for each such carriage 1 Rupee for loading and 1 Rupee for unloading, provided that in no case shall a lesser sum than 5 Rupees, including the price of loading and unloading, be charged for the conveyance of each carriage.

RICKSHAWS

The rate for Rickshaws is 10 cents per mile, the minimum charge being R. 1.

BICYCLES.

The rate is 25 cents over any distance provided the passenger travels with the bicycle; otherwise the charge is 50 cents over any distance.

Contract ticket holders may enjoy the privilege of contract tickets for the transport of their bicycle, tricycle, perambulator or invalid's chair by rail on the following conditions:—

For the 1st 10 miles, 50 cents per mile; not less than 6 miles to be charged for.

For the second 10 miles, 25 cents per mile.

For all further distances above 20 miles, 10 cents per mile.

Thus, if the contract ticket is for a distance of 5 miles, the charge shall be			... Rs.	3.00
For a distance of 8 miles, the charge shall be				4.00
do.	13	„	„ ...	5.75
do.	24	„	„ ...	7.90

Bicycle contract tickets shall be paid monthly and in advance at the abovementioned rates.

They may be taken out and made available for the stations between which the contract ticket holder travels or for a shorter distance between the same stations, but not for a longer distance.

They will be available by any passenger train between those stations for up and down journeys.

The passenger shall, each time he has to travel with his bicycle, produce to the guard of the train his bicycle contract ticket, failing which the bicycle shall not be accepted by the guard except on payment of the fare under article 29 of the Bye-Laws as to parcels.

The Railway Department shall not be responsible for the loss of bicycles or damage to bicycles whilst in charge of the Department, unless it can be proved by the owner of the bicycle that the loss or damage is due to the Railway Department.

All bicycles carried under this Bye-Law shall be legibly addressed and the owner shall personally attend the Brake-Van for the loading and unloading of same.

Bicycle contract tickets are not transferable and shall only be issued as available from the 5th of one month to the 4th of the following month.

They may be issued at any period of the month up to the 4th of the following month but at the full cost of the ticket for one month.

A contract ticket lost by the holder can be re-issued on payment of a fine not exceeding Rs. 2.50 to be recovered by the General Manager of Railways.

All expired contract tickets shall be returned to the Railway Department. If not returned the holder shall be liable to the fine aforementioned.

Any breach of the clauses of this Bye-Law will render the contravener liable to a fine not exceeding Rs. 20.

SPECIAL TRAINS.

The rates for special trains are as follows:—

Between 6 a.m. and 6 p.m.

For trains composed of one Brake-Van and not more than two carriages. Rs. 4 per mile.

For trains composed of one Brake-Van and more than two, but not more than six carriages: Rs 6 per mile.

For trains composed of one Brake-Van and more than six carriages, for each carriage above six, an extra charge shall be made equal to one-sixth of the rate charged for a train of one Brake-Van and six carriages.

"Carriages" include trucks and extra Brake-Vans.

Between 6 p.m. and 6 a.m.

If run after 6 p.m. an additional charge shall be paid of 10% per hour or fraction of an hour that the train is run after 6 p.m. provided that the extra charge shall in no case exceed 5%, exclusive detention fee that may be due.

The charge is the same for a single as for a return journey.

The minimum distance to be charged for is 12 miles.

If the distance is over 16 miles the number of miles above 16 and up to 32 is to be charged for at three-quarter rates. Above 32 miles half rates only are to be charged.

If the special train is to start from a station to and from which an engine or carriages have to be run light, for the special purpose of working the special train, three-quarters of the distance travelled light to the nearest full mile will be added to the mileage of the special train to the purpose of calculating its cost.

If a return train is delayed over 3 hours at a terminal station, Rs. 7.50 shall be charged for each hour in excess of the 3 hours for over-detention.

If the special train is advertized, the cost of the notices in the newspapers shall be charged in addition to the cost of the train.

The cost of the train is to be paid, or sufficiently guaranteed, in advance.

Special trains for coolies will be run at the same rate as above, but, if open goods wagons are used for their conveyance, and the Estate on which they work uses the Railway for the whole of its Traffic, a reduction of 25% will be made.

Special trains may be run in two ways:—

1. The Railway Department issues tickets in the ordinary way, either at full fares or at such reduced fares as the hirers of the trains may direct, and the person for whom the train is run pays only the difference, if any, between the earnings of the train and the cost of the train.

2. Special tickets are issued by the Railway Department, and no ticket but those issued are valid. Any person found travelling with a ticket other than the kind specially issued shall be held as travelling without a ticket and dealt with according to the Bye-Laws.

Not more than 10 persons are allowed to travel in one compartment.

Contract and official tickets are not available for special trains.

Industrial Contracts Tickets issued between Central and out Stations confer a right to travel solely by the Industrial Train and by no higher class than that for which they are issued. If a holder chooses to travel by another train in a higher class than he contracts for, he must pay the ordinary fare (as if his Industrial Ticket had no existence) and if by another train in the same class as that of his contract ticket, 1/3 of the ordinary fare from the station from which his contract ticket starts.

The term "Industrial Train" is confined strictly to that ordinary Passenger train which is due first to arrive from the country each week-day morning at Port Louis, and to that ordinary Passenger train which is notified to leave Port Louis last at night.

Industrial Contract Tickets are also issued entitling the holders to travel between Intermediate Stations only and by the first available passenger train in one direction and by the last available passenger train between the Stations for which they are booked.

(*Government Notice No.* 131 *of* 14.8.08)

CLASSIFICATION OF GOODS

1ST CLASS

The Goods in this Class are to be loaded and unloaded exclusively by the owners, and carried in quantities of not less than five tons, otherwise, to be chargeable at 2nd Class rates, or as for five tons at 1st Class rates whichever amounts to less. A reduction of 25% on the usual tariff rates is allowed on any sum in excess of Rs. 1,000 to every person sending 1st Class goods between the 1st February and the 31st August. The reduction will be made to the person, whether sender or consignee, who pays for the transport.

In the case of large consignments of 1st Class goods requiring more than one wagon, a minimum charge as for

* The same scale of charges applies for equal mileage between intermediate Stations.

CLASSIFICATION OF GOODS.—(*Continued*)

two-thirds the capacity of the wagon marked on it will be made. Above two-thirds the capacity of the wagon the actual weight found will be charged.

In case the wagon is loaded to its full capacity, a rebate of 5% will be granted on the rates. Provided that if the wagon is fully loaded with the goods, but through the nature of the goods a full load does not weigh as much as two-thirds the loading capacity of the wagon then only the weight of the goods which the wagon can contain will be charged for.

Scrap iron
Sleepers
Stones
Tiles (of all kinds)
Timber (colonial, unwrought or roughly squared and hewn)
Raffia

2ND CLASS

Acacia seeds
Aloe fibre
Amchoor
Asphalte, bitumem, coaltar, pitch, &c.,
Axles, wheel tyres springs
Bags,—Gunny and Vacoa
Baggage—Indian
Builders' implements (such as ladders, planks, scaffold, poles, &c., not less than as for 1½ ton per 10 tons truck and 2 tons per truck of 15 tons)
Colonial rum
Chemicals for agricultural or industrial purposes (in casks, bags, cases or jars)
Cement
Chains & cables
Chairs & rails (iron & steel)
Chimney (pots earthenware cf iron)
Cisterns (iron)
Coconut fibre
Grain of all kind (provisions)
Grease (common)
Guano & chemical manures
Lead, iron & tin (whether plain or galvanised in rods, sheets, bars, pipes, tubes, plates)
Molascuit
Nails (iron)
Oils (coconut & lubricating in casks & tins)
Plaster
Potatoes and other edible roots, except manioc (in bags or casks)
Ropes, including wire ropes
Salt fish
Tallow
Timber (wrought)

3RD CLASS

Artillery and ammunition
Bellows—smiths
Bells (of all kinds)
Canes and rattan (and goods manufactured of ditto)
Canvas
Coconut and other matting
Colours and paints
Confectionery
Copper, brass and zinc in sheets, bars, rods, pipes tubes and plates
Crockery
Drapery
Earthenware
Empty packages
Flax and Hemp
Gas and Water Meters
Goods (heavy, not specified)
Groceries of all kinds
Hardware and ironmongery of all kinds (except articles mentioned in Class II)
Haberdashery
Hay and roofing leaves (no less charge for a wagon load than 15% of the total load the wagon can carry)
Joiner's work
Japan and tin ware
Leather and hides
Millinery
Marquees or tents but when requiring two or more wagons, no less charge than 1⅓ ton per wagon
Paper hanging
Sails
Sugar, not coming from Estates
Tarpaulins
Tobacco leaves
Vegetables of all sorts and fruits

4TH CLASS

Agricultural implements and tools
Anchors
Anvils
Boats and Buoys (minimum charge 1½ ton per wagon)
Clocks
Drugs
Harness
Machinery in general, in pieces not exceeding 1 ton
Pieces exceeding 1 ton but not exceeding 2 tons, 50% in addition
Pieces exceeding 4 tons but not exceeding 10 tons, double rate
Pieces exceeding 10 tons, by special agreement
N.B—Senders are requested to give the weight of each piece of machinery they send on their consignment note.
Stationery in general and books
Tea
Tobacco (manufactured)
Toys of all kinds, in cases
Wines and spirit in casks and cases except "vin ordinaire" (for which see Groceries).

5TH CLASS

Chinaware
Coffins
Fish, fresh
Furniture
Game
Gilt mouldings in cases
Glassware (at owner's risk)
Gravestones
Lamps and chandeliers
Luggage, trucks, &c.,
Meat, fresh
Military Baggage
Mirrors (at owner's risk)
Musical instruments of all sorts
Oysters
Panoramas and Theatrical scenery
Petroleum
Plants
Plated goods
Poultry
Works of arts, pictures, &c.

NOTE.—The term "provisions" for which special rates are made to some Stations, is to include all articles, except machinery, furniture and dangerous goods, carried from Port Louis to the Estates for Planters whose sugar is brought to Port Louis by Railway (whether they have a factory or not), provided they are sent in lots of not less than 5 tons; otherwise they will be chargeable according to this classification or as 5 tons at provision rates, whichever amounts to less.

Shopkeepers' goods will also be carried at "provisions" rates if in consignments of at least 5 tons; smaller consignments than 5 tons will be charged as 5 tons or according to ordinary classification whichever will amount to less.

Shopkeepers and other consignors of "provisions" may if they prefer to do so, load their goods themselves in wagons, giving a consignment note for the wagon as for "so many" tons of provisions. The Railway Department will then issue a receipt for "so many" tons of provisions, details or contents "unknown." The wagon will be padlocked by the sender and sealed in his presence. The responsibility of the Railway will be limited in the case of goods thus carried as follows :—

1. If the wagon is delivered to the consignee in good condition and with seal and padlock in good condition, the responsibility of the Railway will cease.

2. If the seal or padlock or both are found to have been tampered with when the consignee comes to take delivery of the wagon, if the consignee so desires, will be reweighed at the expense of the Railway Department and if the weight found is less than that originally found and if the consignee in taking delivery of his goods finds some missing, the Railway will be responsible for weight found short and at a rate not exceeding Rs. 500 per ton.

3. If on taking delivery goods are found damaged or broken, the Railway will not be responsible for the goods, damaged or broken, unless it is satisfactorily proved that the wagon had undergone an accident between the time of loading and the time of delivery, ordinary rough shunting not being reckoned as an accident.

CLASSIFICATION OF GOODS.—(*Continued*)

A rebate of 10 o/o will be made on consignments of "provisions" in the following cases :—

Between the 1st January and the 15th August.

On all consignments of 15 tons and over on the Midland, Savanne and Moka-Flacq Lines and on all consigments, of 10 tons and over on the North and Black River Lines

Between the 16th August and the 31st December.

On all consigments of 10 tons and over, on all lines.

* Molascuit sent from Sugar Factories and consigned to Central Station pays the same rate as Sugar Molascuit consigned to Country Stations pays 2nd Class rates as per "Classification of goods."

When goods are sent from one Station or Siding to another on behalf of an Estate entitled to the benefit of "provision" rates, if the distance between the Stations is less than that between Central and the receiving Station, while the second class rates are higher than the "provision" rates from Central, then the transport may be charged for at the lower rates.

For guano and other provisions sent from Roche Bois, Albion Dock, or any Siding between Roche Bois and Central to a Station viâ the Midland Line, 50 cents per ton will be charged in excess of the "Provision" rates between Central and the Station concerned.

In all cases if there is a siding rate it shall be charged in addition to the above rates.

Sugar is rated at 75 kilos per bag, the gross weight of which is not over 78 kilos. Senders are to give special notice if their bags weigh less than 75 kilos, in which case the reduced weight only will be charged for.

Furniture.

Whenever a separate wagon is required for the transport of furniture, the following minimum charges will be made :—

For a small four wheeled wagon ...	2	tons
" W	3½	"
" G	4½	"
" V (Bogie)	6	"

Furniture not properly packed or not properly loaded to the satisfaction of Railway Department shall not be forwarded unless the sender accepts in writing all risk as to damage.

Molasses.

The rates for the transport of Molasses for exportation to Central Station and the Albion Dock Siding from February 1st to August 31st will be as follows :—

From	Rate per ton Rs. c.
Mahebourg	3 75
Union Vale	3 75
Mare d'Albert	3 75
Souillac	3 75
Rivière des Anguilles	3 75
Rivière Dragon	3 75
Rivière du Poste	3 75
Rose Belle and Rose Belle Estate	3 75
Astrœa Siding	3 75
Midlands	3 75
Vacoas	2 25
Phœnix	2 10

Terre Rouge	1 25

Molasses—(Continued)

From	Rate per ton Rs. c.
Montagne Longue	1 80
Albion	2 ...
Médine	2 50
Tamarin	3 ...

The siding rate of 17 cents per ton from Central Station to Albion Dock Siding for molasses will not be charged during the period from Feb. 1st to August 31st.

Empty casks and tierces to be used for the transport of molasses will be sent free from Central Station and the Albion Dock Siding to Country Stations.

All empty casks remaining at a station after the transport of molasses from that station is completed, will be returned to Central at the rates given in the above table.

From the 1st September in one year to the 31st January in the next year, the molasses for exportation shall be carried at 2nd class rates and the casks at half 3rd class rates.

Molasses for Distilleries

During the whole year, molasses for distilleries sending their rum by railway shall be carried at the following rates :—

For the first 10 miles @ Rs. 0.10 cts. per ton per mile.
„ from 10 to 20 „ @ 7½ „ „
„ „ 20 to 30 „ @ 5½ „ „
„ „ 30 to 40 „ @ 3½ „ „
„ „ 40 to 50 „ @ 2½ „ „

The actual weight found will be charged for. In case no weighbridge is available 10 tierces shall be considered as weighing 3 tons.

In calculating the distance, the length of the siding shall be included, and fractions of a mile shall be counted as a whole mile, also distances under three (3) miles shall be reckoned as 3 miles.

Empties will be returned free.

A distiller desiring to have molasses conveyed to his distillery must give notice in writing to the Station Master of the station at which they are to be loaded two days beforehand, and notice shall be given to him two days previous to the day the wagons shall be placed at his disposal.

After the wagons are placed at his disposal, he will be allowed a working day for the loading of five wagons ; if he exceeds that time he will pay demurrage at the rate of Rs. 2 per 24 hours of detention. As regards unloading at the other end, the same delay will be granted as for loading

Molasses for Manure

Molasses used as manure are assimilated to " Coloinal Engrais " when carried by rail and are charged 1st class rates.

Casks returned empty to station where the molasses were loaded are charged ½ 1st class rates.

Siding rates are charged in all cases.

Ballast

From February 1st to August 31st the following reduced rates are charged for ballast :—

From Roche Bois	to Central	36 c. per ton.
„ Riche Terre and Pastourel Siding	„	50 c. „
„ Terre Rouge	„	72 c. „
„ Pailles	„	36 c. „

Sugar Canes

Persons desiring to have canes conveyed by Railway must apply in writing to the General Manager, giving the following particulars at least one week before the transport is to commence :

(*a*) Number of wagons required daily, or approximate number of tons it is proposed to transport daily.

(*b*) Station or Siding at which the canes are to be loaded, and Station or Siding at which the canes are to be unloaded.

(*c*) Period for which the wagons are required (if possible).

(*d*) Date of commencement of transport.

The following charges per ton of 1,000 kilos are made for transport, the minimum distance charged for being 8 miles :—

R. 0.15 per ton per mile for the first ten miles.
„ 0.10 per ton per each additional mile after 10 miles, up to 20 miles.
„ 0.06 per ton per each additional mile after 20 miles.

In reply, the General Manager will state the number of wagons which can be supplied if any, and the date on which they will be at the loading station. He will also state by what trains the loaded wagons will be taken to their destination, and by what trains the empties will be called for, allowing for a reasonable delay to be agreed upon with the General Manager for loading and unloading the wagons.

As it is important that there should be no unnecessary delay in the loading, unloading and forwarding of cane wagons, the following detention fees will be charged in case the wagons are not ready to be forwarded by the trains agreed upon—namely :

For 7 ton trucks R. 1.40 per working day or portion of a working day the wagon is delayed.
„ 10 ton trucks „ 2.00 „ „ „
„ 14 ton trucks „ 2.80 „ „ „
„ 17 ton trucks „ 3.50 „ „ „

(*Working days mean all days except Sundays and Public Holidays.*)

When wagons are loaded with canes at a regular station, the person in charge of the loading shall give notice thereof to the Station Master at least half an hour before the train by which they are to be forwarded is due. The same shall be done as regards empties at the station of discharge.

At Sidings, if possible, such notice must also be given.

Notice must be given to the Station Master when the wagons are no longer required.

The Station Master at any station and the Driver and Guard of the trains at sidings, shall have full power to reject all wagons which they may consider unsafe to travel, through bad loading or excessive loading, and the sender shall have no claim for compensation, if at fault.

If canes are transported to or from private Sidings, in calculating the rates, the distance of the Siding from the station and the length of the Siding shall be taken into account.

If there is a wagon weighbridge belonging to the Railway Department on which the canes can be conveniently weighed *en route*, the weight thus found will be that charged for.

If there is no such wagon weighbridge but there is one on the Estate to which the canes are sent, the canes will be weighed on it, and the weight thus found will be the one charged for ; the Railway Department reserving to itself the right of testing such weighbridge at any time and of sending an " employé " to supervise the weighing at any time.

In the event of there being no Railway wagon weighbridge and no Estate wagon weighbridge available then the charge shall be according to the size of the wagon—namely : 7 tons for a E wagon
10 „ L „
14 „ X „
12 „ R „
18 „ F „

the Railway Department reserving the right of refusing all overloaded wagons as explained in paragraph 7.

The rates enumerated in paragraph 1 apply only to canes forwarded to an Estate sending the whole of its sugar to town by rail. If the Estate to which the canes are consigned sends none or part only of its sugar by rail, then the rates for the conveyance of the canes shall be increased by 50 per cent. but in case wagons

are scarce, the General Manager will be at liberty to eserve them for the transport of canes of Estates sending rall their sugar by rail.

Rum

The rum must be placed in the wagon in presence of a trustworthy agent sent by the Distiller, and Government seals and padlocks shall be placed on them in his presence. The keys sealed up in a parcel in presence of the Distiller's agent must be forwarded direct to the New Rum Warehouse and on arrival there, the proper officer shall open and receive the same. The Railway Department shall not be liable for any deficiency in the quantity of rum as declared, unless it is proved that the seals have been tampered with after the wagon had been closed and sealed in presence of the agent sent by the Distiller (*Vide Government Notice No. 103 of 1872 § 65 and following.*)

Aloe Leaves

Aloe leaves are carried at the following rates, the minimum distance charged for to be 3 miles :

For the first 10 miles at 12 cents per ton per mile.
,, the second 10 miles at 10 cents per ton per mile.
,, the third 10 miles at 8 cents per ton per mile,
and after 30 miles at 6 cents per ton per mile.

In the event of there being no wagon weighbridge available to weigh the leaves, the charge shall be according to the size of the wagon, i.e. :

For a E wagon	...	6 tons
,, L wagon	...	8 ,,
,, R wagon	..	10 ,,
,, X wagon	...	12 ,,
,, F wagon	...	15 ,,

(*Vide Government Notice No. 95 of 1907.*)

CONDITIONS GOVERNING THE ACCEPTANCE OF DEFERRED TELEGRAMS AT HALF THE ORDINARY TARIFF

Such Telegrams may, at the discretion of the Eastern and South African Telegraph Company or any Telegraph Company or Foreign Administration by whom they may be forwarded, be deferred in favour of full rate traffic, but the total period of such deferment by the various Administrations and Companies concerned shall not exceed 24 hours.

Plain language is such as, in the opinion of the Telegraph Service, bears an intelligible meaning on the face of it, and does not include a succession of numbers, names or words without connected meaning.

The Company may decline to forward any Telegram although it has been received for transmission, but in that case the Company shall, on request, refund to the Sender the amount paid for the transmission and delivery of such Telegram.

If any Telegram shall fail to reach its destination by reason of any neglect or default of the Company or its Servants, which shall have happened whilst the Telegram remained under the Control of the Company, and such failure shall not have been caused by *force majeure*, or by other circumstances which the Company could not reasonably have controlled, then the Company will refund to the Sender of such Telegram the amount paid for its transmission and delivery, less all moneys paid or payable by the Company in respect of such transmission or delivery to any other administration or authority (*whether telegraphic or otherwise, and whether working in connection with the Company or not*) which shall not be exclusively controlled by the Company.

The Company shall not be liable to refund any part of the amount paid for the transmission or delivery of a Telegram in any case in which the non-transmission or non delivery thereof has been caused by *force majeure*, or by other circumstances which the Company could not have controlled, whether there shall or shall not have been neglect or default on the part of the Company or its Servants while the Telegram was under his control.

The Company shall not, nor shall any other telegraphic administration or authority, be liable in any case whatever to make any compensation or payment beyond the amount (if any) to be refunded as above mentioned, for any loss, injury or damage arising or resulting from the non-transmission or non-delivery of any Telegram, or for any delay, error, or omission in the transmission or delivery thereof, from whatever cause such non-transmission, non-delivery, delay, error, or omission shall have occurred.

For the purposes of these conditions the control of the Company over each Telegram shall be deemed to have entirely ceased when in the course of the transmission of the telegram to its destination, it shall have been entrusted by the Company, for further transmission by telegraph or by post or otherwise to any administration or authority not exclusively controlled by the Company, and in case of further transmission by any line, system, or service of telegraphs whether the same shall or shall not be worked as part of or in connection with the telegraphic system or service of the Company, and the Company shall have full power to entrust any Telegram for further transmission to any other administration or authority subject to any conditions prescribed by them.

1. The sender of a private telegram in the Extra-European service may obtain the benefit of a reduction of 50 per cent. in the charge on condition that the telegram is written in plain language, as defined hereafter, and that it is not transmitted until after telegrams charged for at the full rate.

FORM AND HANDING IN

2. *Declaration by Sender.* The Sender must sign, when handing in the telegram, a declaration giving a formal assurance that the text is entirely in plain language and that it does not bear any meaning other than that which

* The charges for Telegrams to other places in North America and to Central America and the West Indies can be obtained on application at the Company's Offices.

† Certain Offices only.

CONDITIONS &c.—(*Continued*)

—

FORM AND HANDING IN—(*Continued*)

appears on the face of it. The declaration must specify the language in which the telegram is written.

3. *Supplementary Instruction.* The sender of a deferred telegram at reduced rate must insert before the address the supplementary instruction L.C. completed as is laid down in paragraph 4. This instruction is counted in the number of words charged for.

4. *Form.* The text of deferred telegrams must be written entirely in plain language and must not contain any figures. commercial marks, groups of letters, or of words without connected meaning, and generally, any telegram which does not in the opinion of the telegraph service bear an intelligible meaning, on the face of it, is not admitted to the benefit of the reduced rate. Registered addresses are accepted if accompanied by a text which makes their nature clear. Numbers must be written in words.

Telegrams without text are not admitted.

Telegrams at reduced rates must be written in French or in one of the languages of the country of origin or destination, specified by the administrations concerned and authorised for international telegraphic correspondence in plain language. According as the language employed is French, a language of the country of origin or a language of the country of destination, the supplementary instruction L.C. is completed and becomes L.C.F., L.C.O. or L.C.D. The use of two or more languages in the same telegram is not allowed.

The wording of the address and the signature of these telegrams are governed by the rules in force for ordinary telegrams.

5. *Counting of words.* The words in the address, in the text, and in the signature are counted according to the rules in force for ordinary telegrams.

RATES AND CHARGES

*6. *Régime.* Deferred telegrams at reduced rates are admitted in the service between countries in the European Régime and countries in the Extra-European Régime (including Senegal.) As regards the service between countries in the Extra-European *Régime* (including Senegal,) except by special arrangement to the contrary, deferred telegrams are only admitted if the charge for ordinary telegrams is not less than 1 Franc per word.

7. *Application of full ordinary rate to irregular telegrams.* The Telegraph Administrations reserve the right to refuse at the reduced rate any telegram which in their opinion is not in accordance with the foregoing conditions.

When the delivery office observes that a telegram bearing one of the supplementary instructions L.C.F. or L.C.D. does not comply with these conditions the telegram is treated in the same way as one containing irregular combinations.

8. *Order of transmission.* Deferred telegrams are only transmitted after non-urgent private telegrams and press telegrams. ** Those which have not reached their destination within a period of 24 hours from the time of handing in are transmitted in turn with telegrams charged for at the full rate.

9. *Delivery.* Telegrams at reduced rates are delivered in turn with telegrams at full rate.

10. *Special Services.* Telegrams at reduced rate may bear any of the supplementary instructions except that relating to urgency. The rates applicable to the various special services desired by the sender of a deferred telegram (paid service telegrams, conditions of delivery, R.P.T.C.,) are the same as in the case of ordinary telegrams. The corresponding supplementary instructions are charged for at the reduced rate. Telegraph money orders and maritime telegrams are not admitted at the reduced rate.

11. *General Conditions.* Telegrams at reduced rates are subjects to all the conditions of the international regulations which do not conflict with the foregoing conditions.

12. *Reimbursement.* The period for reimbursement on account of delay in the case of a deferred telegram is in every case fixed at three *times* 24 hours.

LIST OF PLACES FOR WHICH THE SCHEME IS IN OPERATION.

1. Austria, Belgium, Bosnia, Herzegovina, Canary Islands, Denmark (including Faroe Islands), France (including Algeria and Tunis), Germany, Gibraltar, Great Britain, Greece, Hungary, Iceland, Italy (including Tripolitania), Luxemburg, Malta, Morocco, Netherlands, Norway, Portugal (including Azores), Servia, Spain, and Spanish North African Possessions, Sweden, Switzerland.

COUNCIL OF GOVERNMENT

Qualifications of Electors

(*Extract from Letters Patent dated 11th September 1913*).

§ 21. Every male person shall be entitled to be registered in any year as a voter for any electoral district, and when registered, to vote at the election of a member of the Council for such district, who is qualified as follows, that is to say :—

(1) Has attained the age of 21 years.

(2) Is under no legal incapacity, and is in possession of his civil rights.

(3) Is a British Subject by birth or naturalization.

(4) Has resided in the Colony for three years at least previous to the date of registration, and possesses some one of the following qualifications :—

(*a*) is on the first day of January in such year, and has during the preceding six calendar months, been the owner of immoveable property within such district of the annual value of Rs. 300, or the monthly value of Rs. 25, above all charges and encumbrances affecting the same ;

(*b*) is at the date of registration paying, and has for six calendar months previous to the 1st day of January in such year, paid rent in respect of immoveable property situate within such district, at the rate of at least Rs. 25 per month ;

(*c*) has for three calendar months previous to the 1st day of January in such year resided, or had his principal place of business or employment within such district, and is the owner of moveable property within the Colony of the value of at least Rs. 3,000 ;

(*d*) is the husband of a wife, or the eldest son of a widow possessing any one of the above qualifications ;

(*e*) has for three calendar months previous to the 1st day of January in such year resided, or had his principal place of business or employment within such district, and is in receipt of a yearly salary of at least Rs. 600, or a monthly salary of at least Rs. 50 ;

(*f*) has for three calendar months previous to the 1st day of January in such year resided, or had his principal place of business or employment within such district, and pays licence duty to the amount of at least Rs. 200 per annum :

Provided :

(1) That no person shall be registered as a voter or be entitled to vote for the election of a Member of the Council who has been convicted of perjury in any Court in our Dominions, or who has been sentenced by any such Court to death, or penal servitude or imprisonment with hard labour, or for a term exceeding twelve months, and has not either suffered the punishment to which he was sentenced or such other punishment as by competent authority may have been substituted for the same, or received pardon from Us.

(2) That no person shall be registered as a voter in any year, who has within twelve calendar months immediately preceding the 1st day of January in that year received any relief from public or parochial funds.

(3) That no person shall be registered as a voter in any year, unless he shall, in presence of the Registering Officer or of a Magistrate, with his own hands subscribe his name to his claim to be registered, and write thereon the date of such subscription in respect of which he claims to be registered.

(4) That no person claiming to be registered in the district in which he resides, in respect of either of the qualifications (*c*), (*d*), (*e*), (*f*), shall be registered in respect of the same qualification in the district in which he has his principal place of business or employment or *vice versa*.

COUNCIL OF GOVERNMENT

Qualifications of Elected Members

Extract from Letters Patent dated 11th September 1913

IX. No person shall be capable of being elected a Member of the Council, or, having been elected, shall sit or vote in the Council, who—

(1) Is the holder of any office of emolument under the Crown, or under a Municipal Corporation within the Colony ; or,

(2) Is a minister of religion ; or,

(3) Is the returning officer of the district for which the election is held ; or,

(4) Is not entitled to vote at the election of a Member of the Council for some electoral district.

The term "Minister of Religion" in this clause means any clergyman, minister, priest, or other person who exercises spiritual functions or performs the offices of religion for or respect to any christian or other church community, or body within the Colony.

The term "office of emolument" in this and the eighteenth clause does not extend to the Mayor or any other Member of a Municipal Corporation, and does not include a pension or other allowance to an officer who has ceased to be in the service of the Crown or of a Municipal Corporation. It shall not extend to the following persons if otherwise qualified to be elected Members of the Council :—

(i) Attorneys ;

(ii) Auctioneers ;

(iii) Brokers ;

(iv) Land Surveyors ;

(v) Maritime (Custom House) Brokers ;

(vi) Medical attendants on Estate hospitals under Ordinance No. 12 of 1878 entitled "The Labour Ordinance, 1878";

(vii) Notaries ;

(viii) The Standing Counsel and the Attorney of the Municipal Corporation.

* Acting (1) Honourable Edward Allan Grannum, C.M.G. ; from 31.12.19 to 13.7.20
.. (2) His Honour Herbert William Prichard, from 14.7.20 to 13.12.20.
† Acting — Bertram Alexander Francis from 31.12.19.

ESTABLISHMENTS DETAILED

1920

Shewing the Establishments of the several Departments on the

31st December 1920

Section M (List of officers furnishing securities) of previous editions has been incorporated with Section L in the present issue

The heading of Column 6 of this Return has been shortened for convenience of printing. At full length it is given as follows in the form supplied by the Secretary of State.

" Whether the Office be held by Principal in conjunction with any, and what other Civil, Military, or Naval " Office or Appointment or Place of Profit, in any Colony, or on the Establishment of the United Kingdom."

" If the Office be held by a Military or Naval Officer, state whether upon the Active or the Retired List, and " give the total Amount of Pay and Allowance or of Pension of every kind actually received by him in addition to " the Profits of his Office."

" Whether the Principal enjoys any, and what other, Advantage of Profit not required to be stated in the " preceding columns."

The Salary in all cases is paid from the General Revenue of the Colony, except as regards the Magistrates for the Lesser Dependencies whose salaries and travelling expenses are met out of a sum of Rs. 12,000 paid by the proprietors or lessees of the said Islands, under " The Lesser Dependencies Ordinance, 1904."

NOTE.—H. E. the Governor is appointed by H. M. the King by Commission under Sign Manual and Signet.
Officers receiving more than £ 100 (Rs. 1,500) per annum are appointed by the Secretary of State.
Civil Officers receiving not more than £ 100 (Rs. 1,500) per annum are appointed by the Governor.
Police Officers below the rank of Sub-Inspector are appointed by the Inspector General of Police.
Prison Warders, Trade Masters and Messengers are appointed by the Superintendent of Prisons.
Judicial Officers receiving not more than £ 100 (Rs. 1,500) per annum are appointed by the Judges.

IMPORTS AND EXPORTS

1920

REMARKS

I. The value of Imports is given as they lie in the Port of Entry (C.I.F.) including Freight and Insurance but excluding landing charges. In case of goods consigned for sale, the latest sale value of such goods is given.

II. The value of Exports is given as follows:—

(a) For the principal local produce, viz:—Sugar, molasses, rum, aloe-fibre, coconut oil and vanilla (which represent nearly the Total Export Trade) the value given is in accordance with the Secretary of State's Circular of 19th November 1920—The value in the Port of Shipment (free on board) all charges paid by the Exporters, viz:—Brokerage, Export Duty, repacking cartage and Lighterage—which are styled "Shipping Charges," being added to the market value to form the Cost Price of the Goods on Shipment.

(b) For the other local produce, as well as for all Foreign Produce exported, these charges have been ignored, and the Market Value only is given.

III. The quantities and values (except for sugar exported) are correct according to the declaration on their Bills of Entry of the Custom-House Brokers.

IV. The value of goods entered for transhipment cannot be stated.

PART A.—GENERAL TRADE

([a]) The "Oil Islands" include Agaléga, Diégo Garcia, Eagle I., Farquhar I., Péros Banhos, Six Islands and Solomon I.—all of which depend on their Exports of coconut products.

([b]) The figure Rs. 475,981 published in the 1918 Blue Book is a misprint.

SHIPPING.—(Foreign Trade)

Tonnage figures should show the net, not the gross tonnage.
Coasting trade, where it exists, should be tabulated separately from foreign trade.

PRODUCTION AND NATURAL RESOURCES

1.—(A) Agriculture and Land Tenure.

Acreage disposed of during the year				Total average at end of year			
Granted without sale	Sold	Total	Amount realised	Alienated	In presence of Alienation	Unalienated	Total area of Colony*
Nil	Nil	..	...	384,047	Nil	73,619 acres	460,800 acres (1902–03)

Remarks.—The conditions during which the land passed under private ownership were mainly by concessions under the French "régime."

(B) Size of holdings specifying the number of holdings:

Under 10 acres	11 to 50 acres	51 to 100 acres	101 to 1,000 acres	Over 1,000 acres
The process of parcelling out large estates has been so extensively carried out that it is impossible, at present, to estimate the number of holdings from 0 to 100 acres, as many thousands of such holdings consist only in plots from ⅛ to ½ acre in extent.			about 200	about 80

(C) Crops

Administrative district and nature of crop	No. of acres under cultivation	Gross quantity produce (For local consumption and export).
†*Sugar Cane*	Acres	English tons

	Cattle	16,910
	Sheep	1,235
	Pigs	3,775
	Goats	6,400
	Total live stock on estates ...	29,097

*Date to which these particulars refer.

† Owing to the interchange of cane between neighbouring districts the amount of sugar made in any district is not always correlated with the acreage under cultivation in the district.

(F) Yield of animal produce during the year.

Milk	10 million litres	Rs. 2 million
Butter	25 tons	
Pen manure ...	uncertainable	Rs. 100,000
Hide and skin (of about 8,000 oxen slaughtered)		Rs. 100,000
Beef	800 tons ...	Rs. 800,000

3.—Fisheries

(A) Catch of Fish			(B) No. of Boats and persons engaged in fishing	(C) General information regarding the industry and the possibilities of development
Kind of fish	Quantity	Landed value		
Sea fish : approximately 50 varieties.	1,200 tons	Rs. 500,000.	No. of boats engaged in fishing : 1,168. No. of persons engaged in fishing : 2,000 Besides about 2,000 professional fishermen, there is a large number of occasional or amateur fishermen in all classes of the community.	Large quantities of fish occur on the shoals of Saya de Malha, a few hundred miles North of the Island. It is possible that the fisheries of the Colony are capable of considerable development. The question of the expert investigation of the marine resources of the Colony is receiving the attention of Government.

4.—Minerals

(A) Quantity and Value of each class of minera mined or quarried during the year.

Mineral	Quantity	Value	Metallic content (in case of metallic ores.)
Building stone	unascertainable		Nil

(B) State area which has been geographically surveyed. Note any important mineral deposits known to exist, but not at present worked.

No official geological survey has been made in this Colony. The Island is volcanic in origin, the prevailing rocks being of the basaltic type. Iron ore exists in small quantity in certain localities and smelting was carried on on a small scale during the French occupation. Building stone is obtainable all over the Colony.

(C)

Mining concessions and prospecting licences granted during the year.		Oil concessions and prospecting licences granted during the year.	
No. of concessions.	No. of prospecting licences.	No. of concessions.	No. of prospecting licences.
Nil		Nil	

5.—Water Power.

(A)

Estimate of total water power in H. P. capable of development.	H. P. developed.		Concessions for water power	
	during the year	up to date	No. of concessions	H.P. to be developped
10,000 H.P. at a minimum	Nil	about 600 H.P	Nil	

The water power is utilised in 3 principal electric light and power generating stations, in several aloe factories and in a few small light and power generating plants annexed to sugar factories.

6.—Industrial Establishment and Manufactorie

(so far as not included under sub-sections 1–5 above.)

Industry	No. of establishment or manufactories	No. of persons employed	Cost of Raw Materials	Output during the year	
				Quantity	Net selling value at Factory or Works
					Rs.
Engineering	5	1,600	...	...	2,000,000
Bakeries	67	300	Rs, 25 per 100 lbs	3,000 tons	2,500,000
Dooks (landing shipping &c.)	4	1,700	...	...	1,000,000
Lime Burning ...	56	500	(coral)	5 to 600 tons	20,000
Salt making	3	200	(sea water)	1,500 tons	150,000
Distilleries	3	30	(Molasses Rs. 50,000)	1,650,000 litres	400,000
Cabinet Makers ...	25	300	unascertainable	Developed greatly recently	
Electric Light ...	3	...	...	unascertainable	

In addition to the above there are a number of less important industries viz. : ice making, vinegar making, pottery, aerated water, leather tanning, cigar making, shoe and boot making bricks, biscuits, jams &c.

7.—Summary of Industrial Developmemt

A summarised statement of any developments in the agricultural, forestal, fishing, mining, and other industries of the Colony during the year under review, with a statement as to progress up to date. A special account should be given of Government grants or other action for the development of natural resources and industries of the Colony.

The weather conditions during the year were practically normal. No cyclone approached sufficiently close to threaten danger The harvested crop amounted to 255.77 thousand tons which is nearly a normal figure.

The proportion of vesou sugar was 95.46. This proportion increased steadily from 73.80% in 1911. The mean extraction was 10.76 per cent. of cane as compared with 10.65, mean of the preceding 5 years.

On many factories an important proportion of the large profits made on sugar was laid out in replacing old machinery by new and improved plant.

Owing to the large profits made and anticipated from sugar cane cultivation and to the possibility of utilising new lands in Black River District through the approaching completion of the Government irrigation

scheme at La Ferme, the area under cane cultivation increased markedly: in 1915 the acreage under cane approximated to 170.4 thousand acres, in 1920 it exceeded 179 thousand acres.

The Indian community has especially benefited by the increased prosperity of the Colony. In 1915, the area under Indian cane cultivation approximated to 68 thousand acres, in 1920 it exceeds 80 thousand acres.

The effects of the high prices have been seen in the increased shortage of labour and in greatly enhanced rates for labourers' wages. On most estates great difficulty was experienced in the performance of cultural operations and the reaping of the crop. In consequence, increased attention is being devoted to the adoption of mechanical devices with a view to economising hands. As a fair proportion of the cultivated lands of Mauritius is naturally capable of mechanical tillage, it is expected that a great saving of labour will be effected by the adoption, where possible, of mechanical agencies. Government experiments in this connection are under consideration.

Pests and diseases of the sugar crop have not been markedly in evidence. Owing to the action of the planters a special tax of 20 cent of a rupee per ton of sugar was imposed to permit of more extended activities against the "moutouc" Phytalus Smithi. As a result greatly extended activities have been undertaken during the year. There is evidence to show that as the outcome of the repressive measures adopted the pest is rapidly diminishing.

Experimental work in relation to the sugar industry was continued and proposals submitted for the establishment of a special experiment station to investigate with the irrigation of sugar cane.

As a result of negotiations between the Royal Commission and the Chamber of Agriculture, arrangements were concluded for the sale of at least 90% of the vesou sugar to the Commission at 90/– f.o.b. Mauritius, per cwt. a deduction of 1/– per cwt. being made per each grade from 1st to 3rd. For carrying out this transaction, the Planters Syndicate constituted in 1919 was reconstituted, with the adherence of practically all planters. The entire Vesou crop will thereby pass into the hands of the Commission, with the exception of a few small lots and about 5,000 tons for local consumption.

The necessity for increased cultivation of food crops became less urgent this year. The efforts to encourage food crop cultivation were further discounted by the much greater allurement offered by the high prices obtaining for cane. As a result, the acreage under food crops has shrunk from about 20,000 acres in 1919 to about 9,000 acres at the end of 1920.

The live stock industry of the Colony shows progress. Although the gaps created by the ultilisation of local breeds of stock for food, owing to difficulties of communication with Madagascar as the result of the war, have not yet been made good, yet, the resumption of regular importations from Madagascar on one hand and the efforts of breeders in co-operation with the Department of Agriculture, on the other, are producing markedly beneficial results both in the quality and in the quantity of the local Stock. Cattle dipping is now being widely appreciated and cattle diseases are much less in evidence in consequence.

In relation to other industries, the market for aloe fibre was limited during the year and besides, adversely affected by the exchange. Experiments on the cultivation of Sisal are being carried on by the Department of Agriculture.

The alcohol production of the Colony amounted, in 1920, to 1,700 thousand litres. Most of this is at present consumed locally as rum. The attention of Government and planters is being devoted to the possibility of utilising the molasses of the Colony for the production of alcohol for power purposes. There is great scope for large development in this connection.

A scheme for the commercial development of the Tobacco industry was set on foot in 1920 under Government auspices. From the experiments previously carried on in the Department of Agriculture it was proved that the cultivation of the variety of Tobacco locally known as "Tabac bleu" was practicable. Under the new arrangements the supply of local tobacco is increasing and is readily sold on the local market.

The tea industry shows some decline owing to labour difficulties and foreign competition. Local tea growers enjoy a protection, on the local market of 30 cents per lb.

The demand for coconut oil, copra &c. is practically unlimited and efforts are being made, with some success, to increase the development of coconut cultivation in Mauritius. This industry has long been the staple of the "Oil Islands," Dependencies of Mauritius.

The Co-operative Credit Societies established in 1913 are steadily progressing. On June 30th, 1920, the total capital involved amounted to 365,857 rupees and the membership 3,072.

Since then considerable further developments have taken place in Rodrigues, the principal Dependency of Mauritius has shown increased prosperity and a scheme has been put forward for development, including the establishment in that Island of a branch of the Department of Agriculture.

Wages and Cost of Living

Wages

Agricultural Labourers.—Labourers under contract: average rate per month per adult: Rs. 10 with rations, free lodging and medical attendance; in all equivalent to about Rs. 50 per month.

	Rs.
Day labourers	2.00–3.00 per day.
Female "	0.75–1.00 "

Renumeration for piece work according to locality and conditions.

Rates for piece work in 1920

	Rs.
Clearing land	150–350 per arpent.
Digging cane holes	50– 90 "
Manuring	10– 20 "
Weeding	50– 80 "
Cutting cane	30– 50 "

Industrial Wages

	Rs.
Artisans (Fitters, mechanics, carpenters, joiners, masons, smiths &c.) ...	600–2,000 per an.

Servants

	Rs.
Butlers, cooks, coachmen, gardeners ...	25–50 per m.
Chauffeurs	40–80 "
	Rs.
Managers of Sugar Estates, Senior Govenment Servants &c. ...	10,000–15,000 per an.
Government, Bank and Commercial Clerks (Higher Grade)	6,000–10,000 "
Clerks and employés on Sugar Estates	3,000– 6,000 "
Junior Clerks and Employés ...	1,200– 3,000 "

Cost of Living

Item	Rs.
Rents of houses	50.00–150.00 per month
Rice	30.00 per 100 k.
Flour	20.00 ,,
Butter	2.50– 3.50 per ½ kilo
Beef (average)	0 50 ,,
Tea...	1.10– 1.75 ,,
Bread	0.40 ,,
Cheese	2.50 ,,
Bacon	2.75 ,,
Lard	1.00 ,,
Milk	0.25 per litre
Eggs	0.12– 0.15 each

Vegetables and Fruits—Variable with season and Locality. Expensive in general.

Item	Rs.
Wine (ordinary)	0.80– 3.00 per litre
Spirits ,, ...	3.00– 7.00 ,,
Cotton and Woollen Stuffs ...	10.00–20.00 per metre
Boots (imported)	20.00–40.00 per pair
Tobacco (Bourbon)	16.00 per ½ kilo
Cigarettes (ordinary)... ...	1.00– 2.00 per tin of 50
Medical fee, ...	3.00 per visit

Apothecary drugs—Variable, generally expensive.

Public Amusements

	Rs.
Cinema (Seats)	0.25–1.00
Play ,, ...	0.50–3.00
Concerts ,, ...	1.00–3.00

2.—Acreage		Acreage	
Under Commercial Timber and Firewood		Of other Crown Land, including Waste Lands and Village lots	
	Acres		Acres
High Forests of indigenous species .	18,130	Coconut Plantations	615
Young Forests (thicket and pole stages with introduced species usurping ...	17,485	Grazing ground, exclusive of grazing under Casuarina Plantations	1,740
Coppia Forests of Psidium, Litsœa, Eugenia	6,750	Bare lands and Village lots	11,849
Forest Plantations (*a*) low level	2,400		14,204
(*b*) central table-land, (Pines Eucalyptus)...	7,310		
Casuarina Plantations, leased to adjoining owners	4,550		
	56,625	Total	70,319

3. For the supply of fuel to Public Establishment 2,961 cords of wood (of 80 cft. stacked) were cut in Crown Lands in the several districts; in Casuarina plantations along the coast, Rs. 21,780 worth of timber and firewood were put at the disposal of lessees, that are subjected to regular management of the " Pas Géométriques " under the clear cutting and replanting system. On various other Crown Lands 3,530 cords of firewood of secondary species were sold to the public for Rs. 15,060.

4. Improvement Fellings were conducted, by departmental agency in 2 High forests included in area mentioned in § 2 : 3,726 dead and dyings Trees were felled that yielded 12,768 cft. of timber.

5. In Mountain Reserves (private forests under Government Control) felling rights, under the Selection System, were exercised in 4 different spots, on an aggregate area of about 145a., where dead and dying trees were allowed to be utilized, under control, by the owners, replanting of blanks being a condition of the agreements.

	2	4.33	...	...	2	4.33	...	...	379,747	81,053	460,800	

Note.—Lands are granted by Government by leases and by sales. Lands which are situated on the sea coast beyond the limits of Port Louis known as Pas Geometriques cannot be sold and can only be leased by Public Auction except those forming part of villages which have been proclaimed as such. The sales are invariably made by Public Auction. There is however, an exception to this rule in cases where lands are [illegible] for charitable, religious or educational purposes or for public utility.

GAOLS AND PRISONERS

The Statistical Return only is printed this year. The replies to questions are the same as those given in the Blue Book for 1915 with the following alterations:

QUESTIONS :

I.—**Rodrigues** : Prisoner located on the separate system at night.

III.— do. : Two wards divided into 10 and 5 cells respectively.

IV.— do. : About 10 cubic feet.

IX.—(3) Escapes 1919 : Mauritius Prisons, 23 males ; Reformatory, 5 ; Rodrigues Prison, 1 male.

X.—Costs 1920 Mauritius Prisons, Rs. 264,265.55 ; Reformatory and Industrial School, Rs. 26,856.30 Rodrigues Prison, Rs. 493.02.

XI.—Prisoner's earnings : Mauritius Prisons, Rs. 13,411.36 c. ; Reformatory and Industrial School, Rs. 5,924.88

XII.—**Rodrigues** : Dormitories.—The cells are not lighted but are supervised by Police sentries through peep holes.

XIII.—Punishments : Mauritius Prisons, 4 flogging, 17 wearing chains, 6 solitary confinement in dark and light cells with bread and water diet, 57 forfeiture of remission marks, 383 solitary confinement in light cells with bread and water diet, 441 solitary confinement in light cells with bread and water diet and forfeiture of remission marks, 27 cautioned or admonished.

Reformatory and Industrial School, 2 cautioned, 3 caned on the breech, 1 caned on the breech and to wear party coloured dress for 6 months, 2 caned on the breech and to wear party coloured dress for 6 months, 1 caned on the breech and to wear party coloured dress, 1 loss of grade of monitor and breaking stone, 4 loss of grade of monitor and forfeiture of marks, 5 forfeiture of marks and breaking stones.

XX.—(2) Prevailing disease—Prisons : Malaria and Dysentery. Reformatory, : Malaria.

I. What quantity of water is available for each patient every day ?
(*a*) What is the source of water supply ?
(*b*) What is the quality of water ?
II. Detail the arrangements as to baths and lavatories.
III. What is the system of sewerage and what is the condition of the privies ?

PORT LOUIS—*Civil Hospital*

I. Ad libitum for all purposes. (*a*) Municipal canal and Mare-aux-Vacoas. (*b*) Doubtful so far as the Municipal canal is concerned.
II. 3 bathrooms and 1 lavatory in yard, and 4 turrets containing altogether 24 W. C's and 8 bathrooms connected to the galleries or wards by covered passages.
III. Drainage system in connection with main underground drainage of Section III of Port Louis.

PORT LOUIS—*Prison Hospital*

I. Ad libitum. (*a*) The Municipal Canal and Mare-aux Vacoas. (*b*) Doubtful so far as the Municipal Canal is concerned.
II. One bathroom and 2 lavatories
III. Underground drainage system. Condition of water-closets good.

PAMPLEMOUSSES—*Long Mountain Hospital*

I. Unlimited. (*a*) Bassin Loulou. (*b*) Good.
II. Two bathrooms for males and one for females. All are provided with shower baths. No lavatories.
III. .The Sewerage is well covered and made of reinforced concrete, having a small drain for letting in waste water. The privies contain tubs and are in good condition.

RIVIERE DU REMPART—*Poudre d'Or Hospital*

I. Quantity unlimited. (*a*) Water is obtained from a spring in the neighbourhood and is conveyed to the Hospital in cast iron pipes. (*b*) Good but liable to pollution after heavy rains.
II. Three bathrooms with shower baths, two for men and one for women.
III. Open gutters discharging into the sea for escape of rain, refuse and waste waters. The privies are situated close to the hospital. The night soil service is effected by the dry earth system, by means of tubs removed daily; separate privies for patients suffering from contagious diseases.

FLACQ

I. Unlimited quantity. (*a*) Rivière Dubois. (*b*) Pure.
II. Two bathrooms for males and two for females. They are provided with slipper baths and the water is conveyed thereto by means of pipes.
III. The privies are furnished with tubes (dry earth system) which are removed daily after desinfection. Surface drainage.

GRAND PORT

I. Unlimited quantity. (*a*) From Bé-Vavangue, Bé-Manique, Nouvelle France and Cascade, conveyed in iron pipes. (*b*) Fair, boiled and filtered before use.
II. The bathrooms of 1, 2 and 4 are close to the wards. They are provided with large concrete basins, profuse water supply and shower baths. The female ward is provided with a convenient lavatory.
III. The night soil service is on the dry earth system ; tubs and urinals are removed daily. The rain and waste waters are carried away by surface drains. Condition of privies good, with satisfactory ventilation.

* Ward B—Building demolished and under reconstruction during the whole year.

QUESTION II.—*Continued*

SAVANNE

I. In profusion. (*a*) La Savanne River. (*b*) Suspicious.
II. Ordinary bathrooms with shower bath.
III. Dry earth system by means of tubs.

PLAINES WILHEMS.—*New Central Prisons, Beau Bassin*

I. The quantity is unlimited. (*a*) Mare-aux-Vacoas. (*b*) Good.
II. No lavatory, one bathroom with shower bath attached to each ward.
III. Dry earth system, privies well aired and in good condition.

Barkly Asylum, Beau Bassin

I. Ad libitum. (*a*) Mare-aux-Vacoas. (*b*) Generally good, except occasionally during the dry season, when it is not so satisfactory.
II. Bathrooms are contiguous to the wards. There are no bathrooms to wards B and C, and the patients of these two wards use the bathroom of ward D.
III. Rain and waste waters are disposed of by means of small open drains. Tubs and urinals are removed regularly every morning by prisoners.

Government Reformatory, Rose Hill

I. Ad libitum. (*a*) Mare-aux-Vacoas filtered water only. (*b*) Good.
II. There is a large covered shower bath in the yard in which baths are taken. Clothes are washed in a lavatory fitted with taps.
III. The latrine service is on the dry earth system, tubs and urinals are removed daily. The condition of the privies is satisfactory (fly proof). The rain and waste waters are carried away by surface drains.

MOKA

I. Ad libitum. (*a*) Mare-aux-Vacoas. (*b*) Good.
II. One bathroom. No lavatories.
III. Refuse and waste waters are removed by an open drain to two absorption pits. Water carriage system discharging into septic tanks by means of underground earthenware pipes and finally into absorption pits. Privies in good condition. Drainage of yard effected by means of superficial drains.

QUESTION III

Give the number of visits of inspection paid to the Hospitals during 1920.

Specifying the character of the visit in respect to Notice	And stating the official position of the Visitors: By the Governor or Colonial Secretary	By a Government Inspector	By a Committee of the Governing Body*
PORT LOUIS - *Civil Hospital*			
By appointment	......	......	......
Of surprise	2 by H. E. The Governor ...	18 by Ag. Medical Director	......

* The Hospitals are visited from time to time by Auditors and by Boards of Survey.

I. In reference to the preceding Table state whether or not the Registers and Books were produced on every occasion; and, if not, on how many occasions they were not so produced.

II. And if on any occasion when they were examined, they were found not to be properly made up to date examination.

III. State also how many reports of the following kinds have come under the notice of the Governor:

(a) Reports of a financial or statistical kind especially such as show the system on which money and stores are kept and audited.

(b) Reports by persons charged with the immediate management of the Hospital.

(c) Reports by a Government Inspector independent of the Governing Authority of the Hospital.

PORT LOUIS.

I. Yes, on request.
II. Yes, up to date.
III. (a), (b) and (c) None.

...

I. & II. Nil
III. (a), (b) and (c) None.

PAMPLEMOUSSES.

I. & II. Not applied for.
III. (a), (b) and (c) None.

RIVIÈRE DU REMPART.

I. Yes.
II. Yes, up to date.
III. (a), (b) and (c) None

FLACQ

I. Books produced on every occasion.
II. Examined and found up to date.
III. (a), (b) and (c) None.

GRAND PORT

I. & II. Produced on every occasion and found up to date.
III. (a), (b) and (c) None.

SAVANNE

I. & II. Not applied for.

III. (a), (b) and (c) None.

PLAINES WILHEMS.

New Central Prisons, Beau Bassin

I. Yes, produced when asked for.
II. Yes, found properly kept and up to date
III. (a), (b) and (c) None.

Barkly Asylum, Beau Bassin

I. & II. Produced and found up to date.
III. (a), (b) and (c) None.

Government Reformatory, Rose Hill

I. Produced on each visit.
II. Yes, to date.
III. (a), (b) and (c) None.

MOKA

I. Yes, produced when asked for.
II. Yes, up to date
III. (a), (b) and (c) Nil

Water Supply

What is the Source of the Water Supply; the Quality of Water; and the amount of Water available for all purposes—express in gallons per patient per day.

Supplied in Iron pipes :—

1.—*Plaines Wilhems Canal.*—Quality indifferent, supply irregular during the dry season, made use of for watering purposes and for washing clothes:

2.—*Mare-aux-Vacoas Water*—Quality generally good in the rainy season, made use of for drinking, cooking and bathing purposes.

Quality generally good especially in the rainy season.

3.—Ad libitum.

Lavatories

(a) Number of Lavatories?

(b) And proportion of the total number of basins in them all to the total number of patients?

(a) Eleven (11).

(b) The lavatories at the Asylum are for washing the clothes and utensils of the patients.

There are no lavatories with basins for the use of the patients.

Baths

(a) Number of baths?

(b) Proportion of total number of baths to total number of patients?

(c) How often are the patients bathed?

(d) How much water is allowed for each bath?

(e) Whether fresh water is given to every patient?

(f) Whether the supply of hot water is adequate?

(g) Whether a responsible official or Attendant is always present during the bathing operations?

(h) Whether he reports, in writing, to the Superintendent of the Institution as to the existence of any bruises, eruptions, deformations or other peculiarities he observes when patients are stripped.

(a) 6 shower baths, 4 hip baths, 15 large open and 2 slate baths.

(b) One for every sixteen patients.

(c) Once or twice daily.

(d) Ad libitum.

(e) Usually fresh water is used; but in case of illness warm water if ordered by Medical Superintendent.

(f) The supply of hot water is adequate.

(g) The Warder or Nurse in charge of the cells, where new admissions are generally sent, supervises the bathing operations.

In wards and in private quarters bathing is under the control of the Warder or Matron in charge of Day Room and of the servants.

(h) In case of the existence of any bruises, eruptions &c., the Warders, or Servants call the attention of the Steward or Dispenser on their visits; and this is reported to the Medical Superintendent afterwards.

Latrines

(a) What is the number of Latrines?

(b) What is total number of seats to the total number of patients?

(a) Seventeen latrines containing 30 tubs.

(b) One seat for every fourteen patients.

What is the system of Sewerage?

Septic tank system.

QUESTION II.—(MANAGEMENT)

Physical Examination of Patients

Whether a physical examination of the patient is made by a Medical Practitioner immediately on admission?

Yes, by the Medical Superintendent.

QUESTION II.—(*Continued*)

Restraint

SECLUSION

Seclusion is the enforced isolation of a patient by day between the hours of 7 A.M. and 7 P.M. by the closing of any means whatsoever of the door of the room in which the patient is. Patients are secluded in cases of temporary excitement and violence.

	Males	Females	Total
(a) Number of Persons subjected to Seclusion	21	21	42
(b) Total number of occasions seclusion has been resorted to ...	43	26	69

	Hours
(c) Total number of hours seclusion has been employed in all cases combined	3,282
(d) Longest period during which seclusion has been employed without intermittence in any one instance	8

By whose authority Patients are secluded? — By the Superintendent or in his absence by the Steward and by the Dispenser.

Mechanical Restraint

	Males	Females	Total
(a) Number of Persons subjected to Mechanical Restraint	10	14	24
(b) Total number of occasions mechanical restraint has been resorted to	20	20	40

	Hours
(c) Total number of hours mechanical restraint has been employed in all cases combined	5,644
(d) Longest period during which mechanical restraint has been employed without intermittence in any one instance ...	12

(I) By whose authority Patients are restrained? — The Superintendent or in is absence the Steward and Dispenser.

(II) What methods of mechanical restraint are in use? — Strong canvas dresses only employed to prevent patients from destroying their clothes.
The hands attached to their strong dresses when there is much violence or attempt at suicide, also straps to both hands in case of temporary excitement.

Casualties

Cases of roughness or unkindness by Attendants to Patients. — Nil

Number of cases of injury to patients.
(a) By themselves. — 40
(b) By other patients. — Nil

Occupation and Recreation

AIRING COURTS

There are only two Airing Courts at the Asylum: one for Males, another for Females.

Extent of:—

	Acres.	R.	P.
(I) The airing courts	9	3	21
(II) And other grounds	18	2	4

Belonging to the Asylum.

Are the patients, as a rule, given daily exercise, their health permitting? — Yes.

Are they confined to airing courts, or allowed to walk in other grounds, and sent beyond the Asylum? — During the year under review the patients were confined to the airing grounds.

Particulars of the various means available for amusement and recreation. — Male patients have games of dominoes and draughts and female patients a piano to amuse themselves.
The Institution is provided with a magic lantern, a cinematograph, a gramophone and a phonograph.
One cinematograph and gramophone performance was held in 1920 and the patients were given a treat of cakes, fruits and lemonade on that occasion.

Whether any special Recreation Room is provided. — No special Recreation Room is provided for the patients.

DAILY AVERAGE NUMBER OF PATIENTS WHO WERE EMPLOYED IN 1920

Distinguishing the Sexes	Specifying the character of the employment		
	Agriculture and Gardening	Trade	Household Work, Drawing Water, &c.
Male	29.10	36.10	39.30
Female	...	...	Wards ... ... 23 Washing ... ... 13.32 Sewing 10.72

Religious Services

1. What particular denominational services are provided? — 1. No religious services are held at the Asylum.
2. By whom are the services taken? — 2. Catholics and Protestants are however visited by the Ministers of their Religion.
3. What is the average attendance at the services of each denomination? — 3. Nil.

QUESTION III.—(Diet)

Diet Scale at the Lunatic Asylum

	First Class		Second Class		Extras	Remarks
	Normal	Sick	Normal	Sick		
	grammes	grammes	grammes	grammes		
Beef	225	225	...	225	Fowls: 340 grammes.	Second Class
Bread	450	340	225	340	Eggs [Beef	*Normal Diet*
					Beeftea or Essence of ...	(*a*) Milk days: 3 times a week
Butter	30	...	10	...		
Fresh Fish ...	225	...	225	...	Rum	
			centilitres			
Milk	25 centilitres	1 litre	(*a*) 75+13 (*b*)	1 litre	Arrowroot and Sugar (50 grams. each)	(*b*) Fish days: 4 times a week
Dholl ...	...	...	60 grammes	...	Bread not to exceed 450 grams.	
Potherbs ...	110 grammes	...	110	...	Pontac Wine	
Rice	...	...	225	225 grammes	Milk	
Maize Grits ...	...	...	225	...	Madagascar rice	
Potatoes ...	225	...	225	...	Sago and Sugar	
Salt Fish ..	...	...	60	...		
Sugar ..	45	45 grammes	23	23		
Tea	8	8	4	4		
Green Brèdes ...	...	...	120	...		

(*a*) On Milk days. (*b*) On Fish days.

QUESTION IV.—(Inspection)

Divide the Patients in the Asylum into the following Classes.

	Males	Females	Total
I. Idiots and Imbeciles of whom are epileptics ...	18	13	31
II. Presumably recoverable	76	77	153
III. Chronic and Presumably Irrecoverable of whom are:			
(i) Turbulent and dangerous ...	40	52	92
(ii) Suicidal	15	16	31
(iii) Sick and infirm	1	1	2
(iv) General Paralytics	...	...	...
(v) Epileptics	9	19	28
(iv) Senile Dements	21	22	43
(iiv) Quiet and able bodied	42	34	76
Total ...	222	234	456

Give the number of Visits of Inspection paid to the Asylum in 1919

Distinguishing those Visits in which all Patients were seen and every part of the building visited from Visits of Partial Inspections	And stating the Official Position of the Visitors							
	By the Governor or Colonial Secretary		By Acting Director Medical and Health Department		By a Committee of the Governing Body		By an Inspector specially charged to ascertain the continued Lunacy or otherwise of the Patients	
	By Appointment	Of Surprise	By Appointment	Of Surprise	By Appointment	Of Surprise	By Appointment	Of Surprise
(1) Complete Instructions... ...	...	...	11	4	...	...	...	...
(2) Partial Inspections	...	...	...	...	...	...	...	...

State how many Reports of the following kinds have come under the notice of the Governor:

(I) Financial and Statistical (showing, amongst other things, on what system the Money and Store Accounts are kept and audited.)	Nil
(II) Reports by the Person or Persons charged with the immediate management of the Asylum.	Nil
(III) Reports by an Official Inspector, independent of the Governing Body of the Asylum.	Nil

RESULTS OF THE MAGNETICAL AND METEOROLOGICAL OBSERVATIONS
Taken at the Royal Alfred Observatory, Mauritius, Latitude 20° 5′ 39″ S; Longtitude 3h 50m, 12.6 S. E.

(Standard time 4 h. fast on Greenwich)

The Observatory is about 3 miles from the west coast of the Island and stands on a plain which is about 179 English feet above mean sea level. It is about 5 miles by rail from Port Louis.

The institution is fully equipped as a first class Meteorological and Seismological station

As an Astronomical station, it possesses a 6 inch equatorial, a photoheliograph, 2 transit telescopes and several minor instruments.

The mean values of the Magnetic elements at the Observatory for the year 1920 were as follows :

Declination	West ...	10°. 20′. 33″
Dip	South ..	52°. 40′. 0″
Horizontal Force...	C. G. S. units ..	·23093
Vertical Force	C. G. S. units ..	·30278
Total Force	C. G. S. units ..	·38083

During the year 37 earthquakes were recorded and particulars thereon forwarded monthly to the Seismological Committee of the British Association for the Advancement of Science, and published in the Bulletin.

Daily observations of rainfall were received from about 150 stations in the Colony. The annual rainfall (mean of 29 stations) for the Island was 1980.4 mm. (77.97 in.) compared with an average of 1989.5 mm. (78.33 in.)

The monthly and yearly Means and Extremes of the Meteorological Elements for the year 1920 are given in the table on next page.

MONTHLY and YEARLY MEANS and EXTREMES of the METEOROLOGICAL ELEMENTS for the YEAR 1920.

Living insects from any country including the Dependencies.

Proclamation No. 81 *of* 1913

Grape-vine cuttings and plants, except when covered by a certificate from the Board of Agriculture (or other competent authority) of the country of origin that the vines have not been exposed to the infection of phylloxera for the six weeks prior to the date of shipment; earth, and leaf and garden mould; sugar canes or cuttings thereof, live plants of all sorts including roots, tubers, cuttings, and grafts in any description of earth or soil: dung or animal droppings (except guano), forage: timber with the bark on.

Proclamation No. 8 *of* 1914

Fowls, ducks, guinea-fowls, turkeys and other birds from Madagascar, Ceylon and Tropical African Ports.

Ordinance No. 14 *of* 1908

The shell of the *tortue de mer* or green turtle known as *Kashouane*, and turtle oil cannot be imported from any Dependency except under a special permit from the Collector of Customs.

Proclamations No. 29 *of* 1904, 59 *of* 1905, 39 *of* 1904 *and* 18 *of* 1914

Animals, dead or alive, except cattle, horses, asses, and mules, can be imported from the Indian and Persian Gulf ports only with the permission of the Governor, and dogs with the permission of the Collector of Customs after examination by the Veterinary Surgeon.

Articles not enumerated in the prohibition list under the Proclamations mentioned above may be imported from the said ports after disinfection, if considered necessary, by the Sanitary Authorities.

Cattle, alive, from Indian ports shall be allowed to be landed on production of a certificate from the Civil Veterinary Department of India stating :—

(*a*) That each animal comes from a District which has been free from infectious diseases for six months previous to the shipment.

(*b*) That each animal has, before shipment, been inoculated with Rinderpest anti-serum, if obtained from a district where Rinderpest has ever occurred, or shipped from a port at which Rinderpest exists at time of shipment.

(*c*) That each animal has been subjected to the tuberculin test with a favourable result.

(*d*) That each animal was, at time of embarkation, free from contagious or infectious diseases and from animal parasites.

The cattle shall on landing be quarantined under Veterinary supervision for a period of one month in a place and under conditions approved by the Director of the Health Department, should he consider such a course desirable.

Proclamations Nos. 61 *of* 1905 *and* 29 *of* 1907.

Same restrictions as above enumerated regarding importations from Natal, Basutoland, Cape Colony, Delagoa Bay, and Beira. Old books and newspapers from these places can only be landed with the approval of the Governor.

Proclamation No. 32 *of* 1913.

Horses, asses or mules from South Africa shall be allowed to be landed on production of a certificate from a Veterinary Surgeon at the port of embarkation stating that each animal has, within 10 days of the shipment, been subjected to the mallein test with a favourable result, and that the animal is free from contagious or infectious disease. The animal must besides have passed before embarkation, or must undergo on arrival a sufficient number of days in quarantine to make a total of fourteen days,—the quarantine on arrival to be carried out in a place and under conditions approved by the Director of the Health Department. No animal shall be allowed to land until it is proved to the satisfaction of the Director that it has not suffered from equine piroplasmis (biliary fever).

Proclamation No. 81 *of* 1913.

Sugar canes or cuttings thereof, living plants or bulbils of Agave or Fourcrœa, tea plants, may not be introduced unless written permission has previously been obtained from the Director of Agriculture.

Sugar canes or cuttings thereof; live plants of all sorts, including roots, tubers, cuttings, grafts and buds; fresh citrus fruits, except from the Dependencies, will be inspected at the port of entry.

Proclamation No. 55 *of* 1915

The importation into Mauritius from any country or place whatever, including the Dependencies of Mauritius, of serpents and mongooses, except when introduced for theatrical purposes with the permission of the Governor, and of all living insects, except such as may be required by Government for scientific purposes, is absolutely prohibited.

Proclamation No. 57 *of 1919*

The importation into Mauritius, except under a special licence to be granted by the Governor, of the following dyestuffs, when produced or manufactured outside the British Empire, is prohibited :—

(*a*) All derivatives of coal tar generally known as intermediate products capable of being used or adapted for use as dyestuffs, or of being modified or further manufactured into dyestuffs.

(*b*) All direct cotton colours, all union colours, all acid colours, all chrome and mordant colours, all alizarine colours, all basic colours, all sulphide colours, all vat colours (including synthetic indigo), all oil, spirit, and wax colours, all lake colours, and any other synthetic colours, dyes, stains, colour acids, colour lakes, leuco acids, leuco bases, whether in paste, powder, solution or any other form.

☞ *If any goods are imported or brought into Mauritius contrary to any of the prohibitions or restrictions mentioned in the above table the same shall be forfeited.*

PROHIBITIONS OUTWARDS

Proclamation No. 20 *of* 1914

The exportation of the following birds and of the plumage and skins thereof is absolutely prohibited :— Pingo, bengali, serin du pays, tourterelle du pays, petite hirondelle, grosse hirondelle, oiseau blanc, oiseau manioc, merle de Maurice, coq de bois, cuisinier, oiseau banane, cateau de Maurice, pigeons des Mares, martin or mina, mangeur de poules, paille-en-queue, paille-en-queue de terre ou à bec jaune, poule sultane.

For Steamers of 200 tons and up to 350 tons	..	80
„ 350 „ „ 700 „	...	90
„ 700 „ „ 1,000 „	...	100
„ 1,000 „ „ 1,500 „	...	120
„ 1,500 „ „ and upwards	..	140

KING'S WAREHOUSE RENT

Government Notice No. 9 *of* 20*th January* 1912

The undermentioned rates of Warehouse rent are levied on goods landed by sufferance under articles 21 and 23 of Ordinance No. 28 of 1892, or by Bill of Sight to be lodged in the King's Warehouse and also on articles and packages so lodged by order of the Collector of Customs, including Passengers' baggage temporarily deposited in the King's Warehouse if not removed within three days.

	Not exceeding 15 days		Above 15 days and not exceeding one month		Thereafter per month or portion of a month	
	Rs.	c.	Rs.	c.	Rs.	c.
Not exceeding 250 kilos	...	25	...	50	...	50
Above 250 kilos & not exceeding 500.	...	50	1	...	1	...
„ 500 „ 750.	...	75	1	50	1	50
„ 750 „ 1,000.	1	...	2	...	2	...
And for every 1,000 kilos or part thereof in excess of the first 1,000 kilos ...	1	...	2	...	2	...

or the equivalent by measurement, as the Collector of Customs shall decide, the ton of 1,000 kilos. being reckoned as equal to 40 cubic feet.

The weight or measurement is calculated on the basis of the charge for freight by the importing vessel, or by actual weight or measurement as the Collector of Customs may determine.

The rent is calculated in respect of the whole consignment of each class of goods, and commences on the day on which the first portion of such consignment is landed. Provided that where there has been undue delay in the landing of the several lots comprising a consignment not arising by default of the consignee the Collector of Customs may remit the rent payable for such period not exceeding 15 days in all from the date of landing of the first lot as may seem to him reasonable.

Animals and Vehicles exempt from Direct Taxes

1 The following animals and vehicles shall be exempt, from direct taxes, viz.: (*i*)—[*a*]—Animals and vehicles, except steam lorries and traction engines and trucks, attached therto, employed by their proprietor exclusively for agricultural purposes on any estate of which he is the owner or occupier, or upon any public road or other road bordering or intersecting such estate; [*b*] Steam lorries and traction engines and trucks attached thereto, employed by their proprietor on any estate of which he is the owner or occupier; and any such steam lorries or traction engines and trucks attached thereto sent unloaded to any workshop for the purpose of being repaired, or returning therefrom unloaded afterwards. (*ii*) Animals and vehicles, except steam lorries and traction engines and trucks attached thereto, employed by their proprietor exclusively for conveying, from one property to another, or both of which he is the owner or occupier, or from the property of another person to his own property, or from his own property to the property of another person, or from or to any Railway Station to or from his own property, cane or cane trash, to be used in the manufacture of sugar, or aloe leaves, for the manufacture of fibre or rope, or manure, or any substance to be manufactured as manure. (*iii*) Horses allowed by the King's Regulations in His Majesty's Service. (*iv*) Vehicles kept by any carriage maker, cart-wright, motor-cars, motor-cycles kept exclusively in any shop or store for sale or repair, and which shall not be let for hire. (*v*) Horses and mules kept by any horse dealer for sale, or by any veterinary surgeon for treatment, and which shall not be let for hire. (*vi*) One vehicle and one horse or other animal bearing or drawing burthen, kept and used by any clergyman or minister of religion. (*vii*) One vehicle

Animals and Vehicles exempt from Direct Taxes.—*(Continued)*

and one horse or other animal bearing and drawing burthen; kept and used by Police Officers, Inland Revenue Officers or Guards with the authority of the Inspector General of Police or of the Receiver General respectively, in and for the performance of their duties.

2. The vehicles mentioned in sub-paragraphs (*i*) and (*ii*) of paragraph 1 shall not bear any number but shall have the owner's name painted or branded upon them in the manner provided in the Regulations, otherwise such vehicles shall be held not to come within the exemptions provided in this article.

SCHEDULE H of Ordinance No. 32 of 1915 is repealed and replaced by the following

SCHEDULE H.—Dealer in Bills and Loans

(*a*) On each and every sum of Rs. 20,000 a licence duty of Rs. 30 p.a.
Provided that for any transactions made on or after the 1st November the licence duty shall be Rs. 20 for every Rs. 20,000
Provided further that for any transactions made on or after the 1st March, the licence duty shall be Rs. 10 for every Rs. 20,000.

(*b*) An additional duty of R. 1.50, R. 1 or 50 cents, as the case may be shall be levied on each and every additional Rs. 1,000 or fractional part thereof for transactions made within the periods above specified respectively.

The licence duty shall be payable on every sum or sums lent whether such sum or sums have been lent to one or more persons and shall fall due on the date on which the amount aggregates Rs. 20,000 or more.
The licence duty shall be paid during the whole term for which such sum or sums aggregating Rs. 20,000 or more remain outstanding or due.

RAILWAY TARIFFS

Regulated by Bye Laws issued under the Railway Traffic Ordinance No. 8 of 1864.

Parcels Rates.

	R.	c.
For parcels of all sorts, except those specially mentioned, weighing 5 kilos and under	...	15
For parcels of all sorts, except those specially mentioned, weighing 5 kilos to 10 kilos	...	20
For parcels of all sorts, except those specially mentioned, weighing 10 kilos to 20 kilos	...	25
For parcels of all sorts, except those specially mentioned, weighing 20 kilos to 30 kilos	...	30
For parcels of all sorts, except those specially mentioned, weighing 30 kilos to 35 kilos	...	35
For parcels of all sorts, except those specially mentioned, weighing 35 kilos to 40 kilos	...	40

and 5 cents for each additional 5 kilos or fraction of 5 kilos.

Ice is carried at the following rates:

For 20 kilos and under, R. 0.10 cs., and for each additional 10 kilos or fraction of 10 kilos, 5 cents.

Parcels of fresh meat, fish, oysters, crabs, fowls, eggs, fruits, fresh vegetables and flowers, only when consigned to traders, pay the following rates:

	R.	c.
For parcels weighing 5 kilos and under	...	15
„ „ 5 kilos to 10 kilos	...	20
„ „ 10 „ „ 15 „	...	30
„ „ 15 „ „ 20 „	...	40
„ „ 20 „ „ 25 „	...	50

from 25 to 50 kilos, 10 cents for each 5 kilos or fraction of 5 kilos; above 50 kilos, 5 cents extra for each 5 kilos or fraction of 5 kilos, otherwise there shall be charged the rates for ordinary parcels.

Bread, Biscuits and Butter.

The rates for the conveyance of parcels of bread, biscuits and butter will be temporarily as follows:—

	R.	c.
For parcels weiging 5 kilos and under	...	08
„ over 5 kilos up to 10 kilos	...	10
„ „ 10 „ „ 20 „	...	13
„ „ 20 „ „ 30 „	...	15
„ „ 30 „ „ 35 „	...	18
„ „ 35 „ „ 40 „	...	20

and .02 cents for each additional 5 kilos or fraction of 5 kilos.

Persons holding Passengers season tickets are entitled, to purchase monthly "parcels season tickets" at 4 Rupees per mensem. Holders of such tickets are entitled to the conveyance by rail daily of one or more parcels of bazar or clothing weighing together not more than 15 kilos,—either the Station of departure or the Station of destination of the parcels being the same for all parcels.

If the weight of the parcels exceeds 15 kilos, the excess weight will be charged for at ordinary parcels rates.

Tins of petroleum oil properly packed pay 50 cents per tin.

Parcels for which 25 cents porterage is paid are delivered in Port Louis only.

The Governor may authorize the conveyance by rail of parcels, by special agreement at reduced rates or otherwise for Merchants, Shopkeepers and other persons who have a large quantity of parcels to send every day.

Animals

The following tolls are charged for the conveyance of animals:

All such animals, such as goats, sheep, pigs, monkeys, dogs and other animals which can be carried in the dog-box: per head per mile, 4 cents. For puppies, small dogs and cats carried in hampers or baskets, ordinary parcels rates shall be charged according to weight.

Calves, donkeys, deer, etc.: per head per mile, 12 cents.

Horses, mules, horned cattle conveyed: per head per mile, 25 cents. In no case shall a lesser charge than 10 Rupees be made for the conveyance of each animal abovementioned if a horse-box is employed, or Rs. 5 if a truck is used.

Attendants travelling in horse-boxes or trucks will be charged 3rd class fares.

Animals may however be insured on payment of 1¼% of the declared value, the minimum insurance premium for each animal being Rs. 2.50.

* Pure-bred birds bred in the Colony.

RAILWAY TARIFFS.—(*Continued*)

Corpses

Corpses are transported in ordinary Goods trucks at the rate of 75 cents per mile with 1 Rupee for loading and unloading if done by the Railway. If a Brake Van is used, an extra charge of 5 Rupees will be made. If the 2nd class funeral car is used, an extra charge of 10 Rupees will be made. Persons taking seats in the car will pay second class fares. If the 1st class funeral car is used, the extra charge will be Rs. 15 and persons travelling in it will pay 1st class fares.

The body of a child not exceeding one year of age may be conveyed in a reserved compartment at the rate of 40 cents per mile without any charge for loading and unloading.

Carriages

For the conveyance of each carriage not exceeding in weight 1,000 kilos, a toll of 50 cents per mile, and a further toll of 10 cents per mile for every additional 250 kilos or fraction of 250 kilos in the weight of the said carriage will be claimed. There shall moreover be charged for each such carriage 1 Rupee for loading and 1 Rupee for unloading, provided that in no case shall a lesser sum than 5 Rupees, including the price of loading and unloading, be charged for the conveyance of each carriage.

Rickshaws

The rate for Rickshaws is 10 cents per mile, the minimum charge being R. 1.

Bicycles

The rate is 25 cents over any distance provided the passenger travels with the bicycle ; otherwise the charge is 50 cents over any distance.

Contract ticket holders may enjoy the privilege of contract tickets for the transport of their bicycle, tricycle, perambulator or invalid's chair by rail on the following conditions :—

For the 1st 10 miles, 50 cents per mile ; not less than 6 miles to be charged for.

For the second 10 miles, 25 cents per mile.

For all further distances above 20 miles, 10 cents per mile.

Thus, if the contract ticket is for a distance of 5 miles, the charge shall be			... ...	Rs. 3.00
For a distance of 8 miles, the charge shall be				4.00
do.	13	,,	,, ...	5.75
do.	24	,,	,, ...	7.90

Bicycle contract tickets shall be paid monthly and in advance at the abovementioned rates.

They may be taken out and made available for the stations between which the contract ticket holder travels or for a shorter distance between the same stations, but not for a longer distance.

They will be available by any passenger train between those stations for up and down journeys.

The passenger shall, each time he has to travel with his bicyle, produce to the guard of the train his bicycle contract ticket, failing which the bicycle shall not be accepted by the guard except on payment of the fare under article 29 of the Bye-Laws as to parcels.

The Railway Department shall not be responsible for the loss of bicycles or damage to bicycles whilst in charge of the Department, unless it can be proved by the owner of the bicycle that the loss or damage is due to the Railway Department.

All bicycles carried under this Bye-Law shall be legibly addressed and the owner shall personally attend the Brake-Van for the loading and unloading of same.

Bicycle contract tickets are not transferable and shall only be issued as available from the 5th of one month to the 4th of the following month.

They may be issued at any period of the month up to the 4th of the following month but at the full cost of the ticket for one month.

A contract ticket lost by the holder can be re-issued on payment of a fine not exceeding Rs. 2.50 to be recovered by the General Manager of Railways.

All expired contract tickets shall be returned to the Railway Department. If not returned the holder shall be liable to the fine aforementioned.

Any breach of the clauses of this Bye-Law will render the contravener liable to a fine not exceeding Rs. 20.

Special Trains

The rates for special trains are as follows :—

Between 6 a.m. and 6 p.m.

For trains composed of one Brake-Van and not more than two carriages. Rs. 4 per mile.

For trains composed of one Brake-Van and more than two, but not more than six carriages : Rs. 6 per mile.

For trains composed of one Brake-Van and more than six carriages, for each carriage above six, an extra charge shall be made equal to one-sixth of the rate charged for a train of one Brake-Van and six carriages.

"Carriages" include trucks and extra Brake-Vans.

Between 6 p.m. and 6 a.m.

If run after 6 p.m. an additionnal charge shall be paid of 10% per hour or fraction of an hour that the train is run after 6 p.m. provided that the extra charge shall in no case exceed 5%, exclusive of detention fee that may be due.

The charge is the same for a single as for a return journey.

The minimum distance to be charged for is 12 miles.

If the distance is over 16 miles the number of miles above 16 and up to 32 is to be charged for at threee quarter rates. Above 32 miles half rates only are to be charged.

If the special train is to start from a station to and from which an engine or carriages have to be run light, for the special purpose of working the special train, three-quarters of the distance travelled light to the nearest full mile will be added to the mileage of the special train for the purpose of calculating its cost.

If a return train is delayed over 3 hours at a terminal station, Rs. 7.50 shall be charged for each hour in excess of the 3 hours for over-detention.

If the special train is advertized, the cost of the notices in the newspapers shall be charged in addition to the cost of the train.

The cost of the train is to be paid, or sufficiently guaranteed, in advance.

Special trains for coolies will be run at the same rate as above, but, if open goods wagons are used for their conveyance, and the Estate on which they work uses the Railway for the whole of its Traffic, a reduction of 25% will be made.

Special trains may be run in two ways :—

1. The Railway Department issues tickets in the ordinary way, either at full fares or at such reduced fares as the hirers of the trains may direct, and the person for whom the train is run pays only the difference, if any, between the earnings of the train and the cost of the train.

2. Special tickets are issued by the Railway Department, and no ticket but those issued are valid. Any person found travelling with a ticket other than the kind specially issued shall be held as travelling without a ticket and dealt with according to the Bye-Laws.

Not more than 10 persons are allowed to travel in one compartment.

Contract and official tickets are not available for special trains.

Industrial Contract Tickets issued between Central and out Stations confer a right to travel solely by the Industrial Train and by no higher class than that for which they are issued. If a holder chooses to travel by another train in a higher class than he contracts for, he must pay the ordinary fare (as if his Industrial Ticket had no existence) and if by another train in the same class as that of his contract ticket, 1/3 of the ordinary fare from the station from which his contract ticket starts.

The term "Industrial Train" is confined strictly to that ordinary Passenger train which is due first to arrive from the country each week-day morning at Port Louis, and to that ordinary Passenger train which is notified to leave Port Louis last at night.

Industrial Contract Tickets are also issued entitling the holders to travel between Intermediate Stations only and by the first available passenger train in one direction and by the last available passenger train between the Stations for which they are booked.

(*Government Notice No.* 131 *of* 14.8.08)

CLASSIFICATION OF GOODS

1ST CLASS

The Goods in this Class are to be loaded and unloaded exclusively by the owners, and carried in quantities of not less than five tons, otherwise, to be chargeable at 2nd Class rates, or as for five tons at 1st Class rates whichever amounts to less. A reduction of 25% on the usual tariff rates is allowed on any sum in excess of Rs. 1,000 to every person sending 1st Class goods between the 1st February and the 31st August. The reduction will be made to the person, whether sender or consignee, who pays for the transport.

In the case of large consignments of 1st Class goods requiring more than one wagon, a minimum charge as for

* The same scale of charges applies for equal mileage between intermediate Stations.

CLASSIFICATION OF GOODS.—(*Continued*)

two-thirds the capacity of the wagon marked on it will be made. Above two-thirds the capacity of the wagon the actual weight found will be charged.

In case the wagon is loaded to its full capacity, a rebate of 5% will be granted on the rates. Provided that if the wagon is fully loaded with the goods, but through the nature of the goods a full load does not weigh as much as two-thirds the loading capacity of the wagon then only the weight of the goods which the wagon can contain will be charged for.

Aloe stalks and leaves
do. unpacked
Bambous
Banana shoots
Bones
Bricks (building and fire)
Cane tops
Cement blocks
Chalk
Charcoal
Cinders
Coal
Coconuts
Coral
Demolitions
Engrais & Colonial Manure
Firewood

Tobacco leaves
Vegetables of all sorts and fruits

4TH CLASS

Agricultural implements and tools
Anchors
Anvils
Boats and Buoys (minimum charge 1½ ton per wagon)
Clocks
Drugs
Harness
Machinery in general, in pieces not exceeding 1 ton
Pieces exceeding 1 ton but not exceeding 2 tons, 50 o/o in addition
Pieces exceeding 4 tons but not exceeding 10 tons, double rate
Pieces exceeding 10 tons by special agreement
N.B.—Senders are requested to give the weight of each piece of machinery they send on their consignment note ?
Stationery in general and books
Tea
Tobacco (manufactured)
Toys of all kinds, in cases
Wines and spirit in casks and cases except " vin ordinaire " (for which see Groceries).

5TH CLASS

Chinaware
Coffins
Fish, fresh
Furniture
Game
Gilt moulding in cases
Glassware (at owner's risk)
Gravestones
Lamps and chandeliers
Luggage, trucks, &c.,
Meat, fresh
Military Baggage
Mirrors (at owner's risk)
Musical instruments of all sorts
Oysters
Panoramas and Theatrical scenery
Petroleum
Plants
Plated goods
Poultry
Works of arts, pictures, &c.

NOTE.—The term " provisions " for which special rates are made to some Stations, is to include all articles, except machinery, furniture and dangerous goods, carried from Port Louis to the Estates for Planters whose sugar is brought to Port Louis by Railway (whether they have a factory or not), provided they are sent in lots of not less than 5 tons ; otherwise they will be chargeable according to this classification or as 5 tons at provision rates, whichever amounts to less.

Shopkeepers' goods will also be carried at "provisions" rates if in consignments of at least 5 tons ; smaller consignments than 5 tons will be charged as 5 tons or according to ordinary classification whichever will amount to less.

Shopkeepers and other consignors of "provisions" may if they prefer to do so, load their goods themselves in wagons, giving a consignment note for the wagon as for "so many" tons of provisions. The Railway Department will then issue a receipt for " so many " tons of provisions, details or contents " unknown. " The wagon will be padlocked by the sender and sealed in his presence. The responsibility of the Railway will be limited in the case of goods thus carried as follows :—

1. If the wagon is delivered to the consignee in good condition and with seal and padlock in good condition, the responsibility of the Railway will cease.
2. If the seal or padlock or both are found to have been tampered with when the consignee comes to take delivery of the wagon, if the consignee so desires, will be reweighed at the expense of the Railway Department and if the weight found is less than that originally found and if the consignee in taking delivery of his goods finds some missing, the Railway will be responsible for weight found short and at a rate not exceeding Rs. 500 per ton.

CLASSIFICATION OF GOODS.—(*Continued*)

3. If on taking delivery goods are found damaged or broken, the Railway will not be responsible for the goods, damaged or broken, unless it is satisfactorily proved that the wagon had undergone an accident between the time of loading and the time of delivery, ordinary rough shunting not being reckoned as an accident.

A rebate of 10 % will be made on consignments of "provisions" in the following cases :

Between the 1st *January and the 15th August.*

On all consignments of 15 tons and over on the Midland, Savanne and Moka-Flacq Lines and on all consignments, of 10 tons and over on the North and Black River Lines.

Between the 16th August and the 31st **December.**

On all consignments of 10 tons and over, on all lines.

TABLE OF RATES —SCHEDULE B

* Molascuit sent from Sugar Factories and consigned to Central Station pays the same rate as Sugar. Molascuit consigned to Country Stations pays 2nd Class rates as per "Classification of goods."

When goods are sent from one Station or Siding to another on behalf of an Estate entitled to the benefit of "provision" rates, if the distance between the Stations is less than that between Central and the receiving Station, while the second class rates are higher than the "provision" rates from Central, then the transport may be charged for at the lower rates.

For guano and other provisions sent from Roche Bois, Albion Dock, or any Siding between Roche Bois and Central to a Station viâ the Midland Line, 50 cents per ton will be charged in excess of the "Provision" rates between Central and the Station concerned.

In all cases if there is a siding rate it shall be charged in addition to the above rates.

Sugar is rated at 75 kilos per bag, the gross weight of which is not over 78 kilos. Senders are to give special notice if their bags weigh less than 75 kilos, in which case the reduced weight only will be charged for.

Furniture.

Whenever a separate wagon is required for the transport of furniture, the following minimum charges will be made :—

For a small four wheeled wagon	...	2 tons
" W	... ...	3½ "
" G	... ...	4½ "
" V (Bogie)	... ...	6 "

Furniture not properly packed or not properly loaded to the satisfaction of Railway Department shall not be forwarded unless the sender accepts in writing all risk as to damage.

Molasses.

The rates for the transport of Molasses for exportation to Central Station and the Albion Dock Siding from February 1st to August 31st will be as follows :—

From	Rate per ton Rs.	c.
Mahébourg	3	75
Union Vale	3	75
Mare d'Albert	3	75
Souillac	3	75
Rivière des Anguilles	3	75

Molasses—(Continued)

From	Rate per ton Rs. c.
Montagne Longue	1 80
Albion	2 ...
Médine	2 50
Tamarin	3

The siding rate of 17 cents per ton from Central Station to Albion Dock Siding for molasses will not be charged during the period from Feb. 1st to August 31st.

Empty casks and tierces to be used for the transport of molasses will be sent free from Central Station and the Albion Dock Siding to Country Stations.

All empty casks remaining at a station after the transport of molasses from that station is completed, will be returned to Central at the rates given in the above table.

From the 1st September in one year to the 31st January in the next year, the molasses for exportation shall be carried at 2nd class rates and the casks at half 3rd class rates.

Molasses for Distilleries

During the whole year, molasses for distilleries sending their rum by railway shall be carried at the following rates :—

For the first 10 miles @Rs. 0.10 cts. per ton per mile.
,, from 10 to 20 ,, @ 7½ ,, ,,
,, ,, 20 to 30 ,, @ 5½ ,, ,,
,, ,, 30 to 40 ,, @ 3½ ,, ,,
,, ,, 40 to 50 ,, @ 2½ ,, ,,

The actual weight found will be charged for. In case no weighbridge is available 10 tierces shall be considered as weighing 3 tons.

In calculating the distance, the length of the siding shall be included, and fractions of a mile shall be counted as a whole mile, also distances under three (3) miles shall be reckoned as 3 miles.

Empties will be returned free.

A distiller desiring to have molasses conveyed to his distillery must give notice in writing to the Station Master of the station at which they are to be loaded two days beforehand, and notice shall be given to him two days previous to the day the wagons shall be placed at his disposal.

After the wagons are placed at his disposal, he will be allowed a working day for the loading of five wagons ; if he exceeds that time he will pay demurrage at the rate of Rs. 2 per 24 hours of detention. As regards unloading at the other end, the same delay will be granted as for loading.

Molasses for Manure

Molasses used as manure are assimilated to "Colonial Engrais" when carried by rail and are charged 1st class rates.

Casks returned empty to station where the molasses were loaded are charged ½ 1st class rates.

Siding rates are charged in all cases.

Ballast

From February 1st to August 31st the following reduced rates are charged for ballast :—

From Roche Bois to Central 36 c. per ton.
,, Riche Terre and Pastourel Siding ,, 50 c. ,,
,, Terre Rouge ,, 72 c. ,,
,, Pailles ,, 36 c. ,,

Sugar Canes

Persons desiring to have canes conveyed by Railway must apply in writing to the General Manager, giving the following particulars at least one week before the transport is to commence :

(*a*) Number of wagons required daily, or approximate number of tons it is proposed to transport daily.

(*b*) Station or Siding at which the canes are to be loaded, and Station or Siding at which the canes are to be unloaded.

(*c*) Period for which the wagons are required (if possible).

(*d*) Date of commencement of transport.

The following charges per ton of 1,000 kilos are made for transport, the minimum distance charged for being 3 miles :—

R. 0.15 per ton per mile for the first ten miles.
,, 0.10 per ton per each additional mile after 10 miles, up to 20 miles.
,, 0.06 per ton per each additional mile after 20 miles.

In reply, the General Manager will state the number of wagons which can be supplied if any, and the date on which they will be at the loading station. He will also state by what trains the loaded wagons will be taken to their destination, and by what trains the empties will be called for, allowing for a reasonable delay to be agreed upon with the General Manager for loading and unloading the wagons.

As it is important that there should be no unnecessary delay in the loading, unloading and forwarding of cane wagons, the following detention fees will be charged in case the wagons are not ready to be forwarded by the trains agreed upon—namely :

For 7 ton trucks R. 1 40 per working day or portion of a working day the wagon is delayed.
,, 10 ton trucks ,, 2.00 ,, ,, ,,
,, 14 ton trucks ,, 2.80 ,, ,, ,,
,, 17 ton trucks ,, 3.50 ,, ,, ,,

(*Working days mean all days except Sundays and Public Holidays.*)

When wagons are loaded with canes at a regular station, the person in charge of the loading shall give notice thereof to the Station Master at least half an hour before the train by which they are to be forwarded is due. The same shall be done as regards empties at the station of discharge.

At Sidings, if possible, such notice must also be given.

Notice must be given to the Station Master when the wagons are no longer required.

The Station Master at any station and the Driver and Guard of the trains at sidings, shall have full power to reject all wagons which they may consider unsafe to travel, through bad loading or excessive loading, and the sender shall have no claim for compensation, if at fault.

If canes are transported to or from private Sidings, in calculating the rates, the distance of the Siding from the station and the length of the Siding shall be taken into account.

If there is a wagon weighbridge belonging to the Railway Department on which the canes can be conveniently weighed *en route*, the weight thus found will be that charged for.

If there is no such wagon weighbridge but there is one on the Estate to which the canes are sent, the canes will be weighed on it, and the weight thus found will be the one charged for ; the Railway Department reserving to itself the right of testing such weighbridge at any time and of sending an "employé" to supervise the weighing at any time.

In the event of there being no Railway wagon weighbridge and no Estate wagon weighbridge available then the charge shall be according to the size of the wagon—namely : 7 tons for a E wagon
10 ,, L ,,
14 ,, X ,,
12 ,, R ,,
18 ,, F ,,

the Railway Department reserving the right of refusing all overloaded wagons as explained in paragraph 7.

The rates enumerated in paragraph 1 apply only to canes forwarded to an Estate sending the whole of its sugar to town by rail. If the Estate to which the canes are consigned sends none or part only of its sugar by rail, then the rates for the conveyance of the canes shall be increased by 50 per cent, but in case wagons

are scarce, the General Manager will be at liberty to reserve them for the transport of canes of Estates sending all their sugar by rail.

Rum

The rum must be placed in the wagon in presence of a trustworthy agent sent by the Distiller, and Government seals and padlocks shall be placed on them in his presence. The keys sealed up in a parcel in presence of the Distiller's agent must be forwarded direct to the New Rum Warehouse and on arrival there, the proper officer shall open and receive the same. The Railway Department shall not be liable for any deficiency in the quantity of rum as declared, unless it is proved that the seals have been tampered with after the wagon had been closed and sealed in presence of the agent sent by the Distiller (*Vide Government Notice No. 103 of 1872 § 65 and following.*)

Aloe Leaves

Aloe leaves are carried at the following rates, the minimum distance charged for to be 3 miles :

For the first 10 miles at 12 cents per ton per mile.
„ the second 10 miles at 10 cents per ton per mile.
„ the third 10 miles at 8 cents per ton per mile,
and after 30 miles at 6 cents per ton per mile.

In the event of there being no wagon weighbridge available to weigh the leaves, the charge shall be according to the size of the wagon, i.e. :

For a	E wagon	...	6 tons
„	L wagon	...	8 „
„	R wagon	...	10 „
„	X wagon	...	12 „
„	F wagon	...	15 „

(*Vide Government Notice No. 95 of 1907.*)

CONDITIONS GOVERNING THE ACCEPTANCE OF DEFERRED TELEGRAMS AT HALF THE ORDINARY TARIFF

Such Telegrams may, at the discretion of the Eastern and South African Telegraph Company or any Telegraph Company or Foreign administration by whom they may be forwarded, be deferred in favour of full rate traffic, but the total period of such deferment by the various Administrations and Companies concerned shall not exceed 24 hours.

Plain language is such as in the opinion of the Telegraph Service, bears an intelligible meaning on the face of it and does not include a succession of numbers, names or words without connected meaning.

The Company may decline to forward any Telegram although it has been received for transmission, but in that case the Company shall, on request, refund to the Sender the amount paid for the transmission and delivery of such Telegram.

If any Telegram shall fail to reach its destination by reason of any neglect or default of the Company or its Servants, which shall have happened whilst the Telegram remained under the Control of the Company, and such failure shall not have been caused by *force majeure*, or by other circumstances which the Company could not reasonably have controlled, then the Company will refund to the Sender of such Telegram the amount paid for its transmission and delivery, less all moneys paid or payable by the Company in respect of such transmission or delivery to any other administration or authority (*whether telegraphic or otherwise, and whether working in connectioa with the Company or not*) which shall not be exclusively controlled by the Company.

The Company shall not be liable to refund any part of the amount paid for the transmission or delivery of a Telegram in any case in which the non-transmission or non delivery thereof has been caused by *force majeure*, or by other circumstances which the Company could not have controlled, whether there shall or shall not have been neglect or default on the part of the Company or its Servants while the telegram was under his control.

The Company shall not, nor shall any other telegraphic administration or authority, be liable in any case whatever to make any compensation or payment beyond the amount (if any) to be refunded as above mentioned, for any loss, injury or damage arising or resulting from the non-transmission or non-delivery of any Telegram, or for any delay, error, or omission in the transmission or delivery thereof, from whatever cause such non-transmission, non-delivery, delay, error, or omission shall have occurred.

For the purposes of these conditions the control of the Company over each Telegram shall be deemed to have entirely ceased when in the course of the transmission of the telegram to its destination, it shall have been entrusted by the Company, for further transmission by telegraph or by post or otherwise to any administration or authority not exclusively controlled by the Company, and in case of further transmission by any line, system, or service of telegraphs whether the same shall or shall not be worked as part of or in connection with the telegraphic system or service of the Company, and the Company shall have full power to entrust any Telegram for further transmission to any other administration or authority subject to any conditions prescribed by them.

1. The sender of a private telegram in the Extra-European service may obtain the benefit of a reduction of 50 per cent, in the charge on condition that the telegram is written in plain language, as defined hereafter, and tnat it is not transmitted until after telegrams charged for at the full rate.

FORM AND HANDING IN

2. *Declaration by Sender.* The Sender must sign, when handing in the telegram, a declaration giving a formal assurance that the text is entirely in plain language and that it does not bear any meaning other than that which

* The charges for Telegrams to other places in North America and to Central America and the West Indies can be obtained on application at the Company's Offices.

† Certain Offices only.

CONDITIONS &c.—(*Continued*)

FORM AND HANDING IN—(*Continued*)

appears on the face of it. The declaration must specify the language in which the telegram is written.

3. *Supplementary Instruction.* The sender of a deferred telegram at reduced rate must insert before the address the supplementary instruction L.C. completed as is laid down in paragraph 4. This instruction is counted in the number of words charged for.

4. *Form* The text of deferred telegrams must be written entirely in plain language and must not contain any figures, commercial marks, groups of letters, or of words without connected meaning, and generally, any telegram which does not in the opinion of the telegraph service bear an intelligible meaning, on the face of it, is not admitted to the benefit of the reduced rate. Registered addresses are accepted if accompanied by a text which makes their nature clear. Numbers must be written in words.

Telegrams without text are not admitted.

Telegrams at reduced rates must be written in French or in one of the languages of the country of origin or destination, specified by the administrations concerned and authorised for international telegraphic correspondence in plain language. According as the language employed is French, a language of the country of origin or a language of the country of destination, the supplementary instruction L.C. is completed and becomes L.C.F., L.C.O. or L.C.D. The use of two or more languages in the same telegram is not allowed.

The wording of the address and the signature of these telegrams are governed by the rules in force for ordinary telegrams.

5. *Counting of words.* The words in the address, in the text, and in the signature are counted according to the rules in force for ordinary telegrams.

RATES AND CHARGES

*6. *Régime.* Deferred telegrams at reduced rates are admitted in the service between countries in the European Régime and countries in the Extra-European Régime (including Senegal). As regards the service between countries in the Extra-European *Régime* (including Senegal,) except by special arrangement to the contrary, deferred telegrams are only admitted if the charge for ordinary telegrams is not less than 1 Franc per word.

7. *Application of full ordinary rate to irregular telegrams.* The Telegraph Administrations reserve the right to refuse at the reduced rate any telegram which in their opinion is not in accordance with the foregoing conditions.

When the delivery office observes that a telegram bearing one of the supplementary instructions L.C.F. or L.C.D. does not comply with these conditions the telegram is treated in the same way as one containing irregular combinations.

8. *Order of transmission.* Deferred telegrams are only transmitted after non-urgent private telegrams and press telegrams. **Those which have not reached their destination within a period of 24 hours from the time of handing in are transmitted in turn with telegrams charged for at the full rate.

9. *Delivery.* Telegrams at reduced rates are delivered in turn with telegrams at full rate.

10. *Special services.* Telegrams at reduced rate may bear any of the supplementary instructions except that relating to urgency. The rates applicable to the various special services desired by the sender of a deferred telegram (paid service telegrams, conditions of delivery, R.P.T.C.,) are the same as in the case of ordinary telegrams. The corresponding supplementary instructions are charged for at the reduced rate. Telegraph money orders and maritime telegrams are not admitted at the reduced rate.

11. *General Conditions.* Telegrams at reduced rates are subjects to all the conditions of the international regulations which do not conflict with the foregoing conditions.

12. *Reimbursement.* The period for reimbursement on account of delay in the case of a deferred telegram is in every case fixed at three *times* 24 hours.

LIST OF PLACES FOR WHICH THE SCHEME IS IN OPERATION.

1. Austria, Belgium, Bosnia, Herzegovina, Canary Islands, Denmark (including Faroe Islands), France (including Algeria and Tunis), Germany, Gibraltar, Great Britain, Greece, Hungary, Iceland, Italy (including Tripolitania), Luxemburg, Malta, Morocco, Netherlands, Norway, Portugal (including Azores), Servia, Spain, and Spanish North African Possessions, Swenden, Switzerland.

Also Antung, Changchun, Harbin, Kirin, Newchwang, Shengking and Tsitsihar, (in Manchuria).

7. Portuguese Colonies.

* As deferred telegrams at reduced rates are subject to special arrangements, they cannot be accepted for all destinations; further particulars can be obtained at the Company's Office.

** This stipulation does not apply in the case of press telegrams over the Companies' lines, as press traffic at reduced rates is only transmitted after any other traffic that may be on hand shall have been transmitted and completed, in accordance with the Companies' revised Press Regulations.

† Temporarily suspended.

*As only one candidate presented himself in the District, there was no polling.
†Held first on 28.1.21. when Charles Frédéric Gébert, Esqre, was returned. Member died on 2.2.21.

COUNCIL OF GOVERNMENT

Qualifications of Electors

(*Extract from Letters Patent dated 11th September, 1913.*)

§ 21. Every male person shall be entitled to be registered in any year as a voter for any electoral district, and when registered, to vote at the election of a member of the Council for such district, who is qualified as follows, that is to say :—

(1) Has attained the age of 21 years.

(2) Is under no legal incapacity, and isin possession of his civil rights.

(3) Is a Biritish Subject by birth or naturalization.

(4) Has resided in the Colony for three years at least previous to the date of registration, and possesses some one of the following qualifications :—

(*a*) is on the first day of January in such year, and has during the preceding six calendar months, been the owner of immoveable property within such district of the annual value of Rs. 300, or the monthly value of Rs. 25, above all charges and encumbrances affecting the same ;

(*b*) is at the date of registration paying, and has for six calendar months previous to the 1st day of January in such year, paid rent in respect of immoveable property situate within such district, at the rate of at least Rs. 25 per month ;

(*c*) has for three calendar months previous to the 1st day of January in such year resided, or had his principal place of business or employment within such district, and is the owner of moveable property within the Colony of the value of at least Rs. 3,000 ;

(*d*) is the husband of a wife, or the eldest son of a widow possessing any one of the above qualifications ;

(*e*) has for three calendar months previous to the 1st day of January in such year resided, or had his principal place of business or employment within such district, and is in receipt of a yearly salary of at least Rs. 600, or a monthly salary of at least Rs. 50 ;

(*f*) has for three calendar months previous to the 1st day of January in such year resided, or had his principal place of business or employment within such district, and pays licence duty to the amount of at least Rs. 200 per annum :

Provided :

(1) That no person shall be registered as a voter or be entitled to vote for the election of a Member of the Council who has been convicted of perjury in any Court in our Dominions,or who has been sentenced by any such Court to death, or penal servitude or imprisonment with hard labour, or for a term exceeding twelve months, and has not either suffered the punishment to which he was sentenced or such other punishment as by competent authority may have been substituted for the same, or received pardon from Us.

(2) That no person shall be registered as a voter in any year, who has within twelve calendar months immediately preceding the 1st day of January in that year received any relief from public or parochial funds.

(3) That no person shall be registered as a voter in any year, unless he shall, in presence of the Registering Officer or of a Magistrate, with his own hands subscribe his name to his claim to be registered, and write thereon the date of such subscription and the qualification in respect of which he claims to be registered.

(4) That no person claiming to be registered in the district in which he resides, in respect of either of the qualifications (*c*), (*d*), (*e*), (*f*), shall be registered in respect of the same qualification in the district in which he has his principal place of business or employment or *vice versa*.

COUNCIL OF GOVERNMENT

Qualifications of Elected Members

Extract from Letters Patent dated 11 *September*, 1913.

IX. No person shall be capable of being elected a Member of the Council, or, having been elected, shall sit or vote in the Council, who—

(1) Is the holder in any office of emolument under the Crown, or under a Municipal Corporation within the Colony; or,

(2) Is a minister of religion; or,

(3) Is the returning officer of the district for which the election is held; or,

(4) Is not entitled to vote at the election of a Member of the Council for some electoral district.

The term "Minister of Religion" in this clause means any clergyman, minister, priest, or other person who exercises spiritual functions or performs the offices of religion for or in respect to any christian or other church community, or body within the Colony.

The term "office of emolument" in this and the eighteenth clause does not extend to the Mayor or any other Member of the Municipal Corporation, and does not include a pension or other allowance to an officer who has ceased to be in the service of the Crown or of a Municipal Corporation. It shall not extend to the following persons if otherwise qualified to be elected Members of Council :—

(i) Attorneys;

(ii) Auctioneers;

(iii) Brokers;

(iv) Land Surveyors;

(v) Maritime (Custom House) brokers;

(vi) Medical attendants on Estate hospitals under Ordinance No. 12 of 1878 entitled "The Labou Ordinance, 1878";

(vii) Notaries;

(viii) The Standing Counsel and the Attorney of the Municipal Corporation.

* His Honour Herbert William Prichard acting from 2.2.21 to 3.4.21—period during which the Colonial Secretary acted as Officer Administering the Government.
† His Honour Herbert William Prichard acting from 22.4.21.
‡ The Honourable Bertram Alexander Francis acting from 31.12.19.

IMPORTS AND EXPORTS

1921

REMARKS

I. The value of Imports is given as they lie in the Port of Entry (C.I.F.) including Freight and Insurance, but excluding landing charges. In the case of goods consigned for sale, the latest sale value of such goods is given.

II. The value of Exports is given as follows:—

(a) For the principal local produce viz.:—Sugar, molasses, rum, aloe-fibre, coconut and vanilla (which represent nearly the Total Export Trade) the value given is in accordance with the Secretary of State's Circular of 19th November 1920—The value in the Port of Shipment (free on board), all charges paid by the Exporters, viz.:—Brokerage, Export Duty, Repacking, Cartage and Lighterage (which are styled "Shipping Charges," being added to the market value to form the Cost Price of the Goods on Shipment.

(b) For the other local produce, as well as for all Foreign Produce exported, these charges have been ignored, and the Market Value only is given.

III. The quantities and values (except for sugar exported) are correct according to the declaration on their Bills of Entry of the Custom-House Brokers.

IV. The value of goods entered for transhipment cannot be stated.

V. The Exchange has been calculated at Rs. 15. to the £.

* Including Rs. 40,773 excess duty.
† Rs. 136,372 for Claret only, including Rs 40,037 excess duty. Total excess duty on wines in Casks Rs. 78,816.
‡ i.e. not enumerated in Import List (Table No. 10).
§ Including Accessories.
‖ Not including Rs. 1,001,263 extra duty in 1920 and Rs. 2,205,574 in 1921; these figures only represent the amount of Extra Duty collected in Mauritius—and not that part of it which was paid in the United Kingdom.

TABLE No. 10.—DETAILED STATEMENT showing the quantities and value of each description of ARTICLES IMPORTED during the year 1921, distinguishing the Countries of Origin.*

Articles and Countries of origin	Total quantity imported	Value in Rupees
A		
Ale (see Beer and Ale)		
Almonds (see Fruits and Nuts)		
Ammonia Sulphate or Nitrate (see Manures, Chemical)		
Animals living :		
(For Food)		
Cows and Oxen, I. B.—	No.	
Madagascar ...	13,104	1,128,985
	—	—
Poultry, I. B.—		
Australia ...		1,004
U. of S. Africa .		1,930
		2,934
Tortoises, I. B.—		
Madagascar ..	190	171
Total Animals, living (for Food)	Rs.	1,132,090
(For Other Purposes than Food)		
Asses, IV.—	No.	
U. of S. Africa ..	10	3,050
Cows and Oxen, IV—	—	—
Australia ...	17	13,580
U. of S. Africa ...	63	41,350
Madagascar ..	4,492	363,966
United States ..	14	9,260
	4,586	428,156
Dogs, IV.—		
U Kingdom ..	1	390
Australia	8	660
U. of S. Africa ...	8	1,270
	17	2,320
Horses, IV.—		
U. Kingdom ...	16	52,846
Australia	91	36,742
U. of S. Africa ..	114	42,950
	221	132,538
Mules, IV.—		
U. of S. Africa ...	30	15,900
	—	—
Pigs, IV.—		
U. of S. Africa ...	1	40
	—	—
Rabbits, IV.—		
U. of S. Africa ...	6	135
Total Animals, living (for other purposes than Food)	Rs	582,139
Total Animals, living (for all purposes)	Rs.	1,714,229
Animal Charcoal, II. K.—		
U. Kingdom ...		176
France		260
		436
Animal Waste (see Manures Raw)		

Articles and Countries of origin	Total quantity imported	Value in Rupees
Apothecary wares (see Drugs)		
Apparel :		
Apparel Wearing : (*i.e.* clothing, including waterproofed, Boots and Shoes, other than leather, cotton caps etc.—but excluding hats of all sorts and hosiery),—III. I.—

(*) The "Oil Islands" include Agaléga, Diégo Garcia, Eagle I., Farquhar I., Péros Banhos, Six Islands and Solomon I.—all of which depend on their Exports of coconut products. Farquhar I., is to cease to appear as a "Dependency of Mauritius" in the Trade Statistics for 1922, having been annexed to the Colony of Seychelles.

SHIPPING. (Foreign Trade)

Tonnage figures show the net, not the gross tonnage.

Coasting trade is tabulated separately from foreign trade.

PRODUCTION AND NATURAL RESOURCES

1.—(A) Agriculture and Land Tenure

Acreage disposed of during the year				Total acreage at end of year			
Granted without sale	Sold	Total	Amount realised	Alienated	In process of Alienation	Unalienated	Total area of Colony*
Nil	Nil	...	...	384,047	Nil	73,619	460,800 acres (1902–03)

Remarks.—The conditions during which the land passed under private ownership were mainly by concessions under the French "régime."

(B) Size of holdings specifying the number of holdings:

Under 10 acres	11 to 50 acres	51 to 100 acres	101 to 1,000 acres	Over 1,000 acres
The process of parcelling out large estates has been so extensively carried out that it is impossible, at present, to estimate the number of holdings from 0 to 100 acres, as many thousands of such holdings consist only in plots from $\frac{1}{8}$ to $\frac{1}{2}$ acre in extent.			about 200	about 80

(C) Crops

Administrative district and nature of crop	No. of acres under cultivation	Gross quantity of produce (For local consumption and export)
† *Sugar Cane*	Acres	English tons

* Date to which these particulars refer.
† Owing to the interchange of cane between neighbouring districts the amount of sugar made in any district is not always correlated with the acreage under cultivation in the district.
‡ 1921 census.

(F) YIELD OF ANIMAL PRODUCE DURING THE YEAR

Milk	10 million litres	Rs 2.5 million
Butter	30 tons	
Pen manure ...	unascertainable	Rs. 120,000
Hide and skin (of about 12,000 oxen slaughtered)		Rs. 150,000
Beef ...	1,200 tons	Rs. 1,000,000

3.—FISHERIES

(a) Catch of Fish			(b) No. of Boats and persons engaged in fishing	(c) General information regarding the industry and the possibilities of development.
Kind of fish	Quantity	Landed value		
Sea fish : approximately 50 varieties.	1,200 tons	Rs. 500,000	No. of boats engaged in fishing : 261. No. of persons engaged in fishing : 1,000 Besides about 1,000 professional fishermen, there is a large number of occasional or amateur fishermen in all classes of the community.	Large quantities of fish occur on the shoals of Saya de Malba, a few hundred miles North of the Island. It is possible that the fisheries of the Colony are capable of considerable development. The question of the expert investigation of the marine resources of the Colony is receiving the attention of Government.

4.—MINERALS

(A) Quantity and Value of each class of mineral mined or quarried during the year.

Mineral	Quantity	Value	Metallic content (in case of metallic ores.)
Building stone	unascertainable		Nil

(B) State area which has been geologically surveyed. Note any important mineral deposits known to exist, but not at present worked.

No official geological survey has been made in this Colony. The Island is volcanic in origin, the prevailing rocks being of the basaltic type. Iron ore exists in small quantity in certain localities and smelting was carried on a small scale during the French occupation. Building stone is obtainable all over the Colony.

(C)

Mining concessions and prospecting licences granted during the year.		Oil concessions and prospecting licences granted during the year.	
No. of concessions.	No. of prospecting licences.	No. of concessions.	No. of prospecting licences
Nil		Nil	

5.—WATER POWER.

(A)

Estimate of total water power in H. P. capable of development.	H. P. developed.		Concessions for water power	
	during the year	up to date	No. of concessions	H.P. to be developed
10,000 H.P. at a minimum	Nil	about 700 H.P.	Nil	

The water power is utilised in four principal electric light and power generating stations, in several aloe factories and in a few small light and power generating plants annexed to sugar factories.

6.—INDUSTRIAL ESTABLISHMENTS AND MANUFACTORIES

(so far as not included under sub-sections 1–5 above).

Industry	No. of establishments or manufactories	No. of persons employed	Cost of Raw Materials	Output during the year: Quantity	Output during the year: Net selling value at Factory or Works
					Rs.
Engineering ...	5	1,600	..	.	2,000,000
Bakeries	63	300	Rs. 18 per 100 lbs	3,000 tons	2,500,000
Docks (landing shipping &c.)	4	1,700	...	..	1,000,000
Lime Burning ...	56	500	(coral)	5 to 600 tons	20,000
Salt making	3	200	(sea water)	1,500 tons	150,000
Distilleries	3	30	(Molasses Rs. 50,000)	1,900,000 litres	500,000
Cabinet Makers ...	94	800	Unascertainable	Developed gre recently	
Electric Light ...	3	150	...	Unascertainable	

In addition to the above there are a number of less important industries viz. : ice making, vinegar making, pottery, aerated water, leather tanning, cigar making, shoe and boot making, bricks, biscuits, jams &c.

7.—SUMMARY OF INDUSTRIAL DEVELOPMENT

A summarised statement of any developments in the agricultural, forestal, fishing, mining, and other industries of the Colony during the year under review, with a statement as to progress up to date. A special account should be given of Government grants or other action for the development of natural resources and industries of the Colony.

The weather conditions during the year were most unfavourable : deficiency of temperature and drought prevailing during the growing season with high temperature and heavy rainfall during the harvesting season. On March 11th, a cyclone passed within 100 miles North of Mauritius, causing appreciable damage to the plantations. The harm done was aggravated by low temperature and defective rainfall afterwards, while the abnormal and unseasonable rainfall of September, October and November caused great reduction in the sucrose content of the cane, and hence in the extraction of sugar.

The total sugar made in the Colony approximated to 200,600 English tons. The deficit on the normal is thus about 23%. The extraction of commercial sugar per cent. of cane was the lowest for the last 15 years, viz. : 9.90.

Great difficulties were experienced in the manipulation of the crop on account of scarcity of labour. These difficulties, associated with very unfavourable weather and relatively low prices for sugar led to the abandonment of many hundreds of acres of standing canes for next harvest.

Considerable improvements were again introduced into a number of factories during the past year : the value of imported machinery in 1921 approximated to 5½ million rupees.

In consequence of the scarcity of labour, considerably increased attention was paid to the adoption of labour-saving devices in relation to cultivation. During the year a number of farm tractors were introduced in the Colony

and a Joint Committee of the Board of Agriculture and the Chamber of Agriculture was appointed for dealing with tractor trials in a methodical manner for the general advantage of the planting Community

The high prices obtaining in 1920 for canes, have led to a steady increase in the area cultivated. At the end of 1921 the area under cane was 179,800 acres.

The large profits made by Indians on last year's sale of canes have been, to a great degree, invested in the purchase of new lands. Such purchases have, however been made in many cases, at excessively large values and it is to be feared that, in some cases, unfortunate results may ensue with the return of prices to a more normal level.

The question of a Government Irrigation Experiment Station took definite shape during the year and the work of laying out the station commenced in April. At the end of 1921 the work was practically completed. It is hoped that the results of these experiments will throw light on many problems which are as yet obscure and will tend to increase the efficiency of irrigation practised in the Colony. Substantial progress was also made during the year with the irrigation scheme for the North of the Island which aims at supplying water to some 10,000 acres of land.

The cost of production of sugar, which had been rising steadily since 1914 reached its highest value in 1921 and, through the return of prices to a more normal level a large proportion of the factories of the Colony closed the sugar compaign with a deficit. The mean price per 50 kilos of sugar, sold to the Royal Commision, approximated last year to Rs. 50.20. This year, the Royal Commission having ceased operation, sugar was disposed of to private buyers at prices ranging between Rs. 11 and Rs. 12 per 50 kilos on the average.

The incidence of pests and decreases of the sugar cane has not been marked in 1921 and the success attending the methods of repression adopted by the Department of Agriculture against "Phytalus Smithi" must be regarded as most satisfactory.

Experimental investigations, both in the field and in the Laboratary, have been continued during the year by the Department of Agriculture, comprising manurial experiments of various kind, trials of new varieties of canes, researches into the composition and utilization of molasses, the deterioration of sugar etc.

Owing to the extraordinarily favourable market condition for sugar which prevailed during 1920, very little interest in any form of subsidiary cultivation was evinced during the earlier part of the year. The collapse of the sugar market has, however, caused some readjustment in the position and, by the end of the year, an interest had revived, to some extent, in the various minor cultivations commonly carried on in the Colony.

As regards Aloe Fibre, the market rose sharply towards the end of the year and the drop in freight quotations at the same time led to a revival of interest in this staple.

The production of alcohol reached this year, its maximum viz.; 2 million litres nearly. The greater part of this is consumed as rum locally.

Complete success has attended the experiments made by the Department of Agriculture with a view to growing tobacco in the Colony. Permits are granted for the cultivation of tobacco on private lands without payment of tax on condition that growers sell their tobacco to Government ot fixed prices. By the end of the year permits for 56½ acres had been licensed and the prospects for the development of this important minor industry appear to be decidedly hopeful.

Increased interest continued to be manifested in live stock questions. Importations from Madagascar approximated to 17,500 during the year, of which 13,000 were slaughtered for food. Animals of good strain for breeding purposes, were imported by Planters from South Africa, Australia and the United States while a Government Dairy, at first on experimental lines, was inaugurated during the year. Concurrently with the population census an enumeration of live stock in the Colony was made : the results indicate that the total number of cattle in the Colony at the end of 1921 approximated to 44,000 heads, or an increase of about 11,000 since 1918.

An outbreak of Surra occurred in April and May but was stamped out by the beginning of July. The practice of dipping cattle acquired a further extension during the year and a number of additional tanks were erected ; efforts are also made to proceed with the erection of public dipping tanks.

Co-Operative Credit Societies made steady progress during the year, and 4 new Societies were registered. The total membership on June 30th amounted to 3,504 while the total capital to their credit amounted to Rs. 445,792, an inerease of Rs. 79,935 over the corresponding figures for 1920.

As the result of the movement initiated by the Director of Agriculture, a Joint Committee of the "Chamber of Agriculture" and the "Society of Chemists" was nominated to consider the question of the extension of agricultural teaching. The Committee recommended the development of the existing School of Agriculture to form a small Agricultural College and the establishment of two travelling studentships, the holders of which would be selected from the graduates of the College of Agriculture. In addition, the existing organisation of the Department of Agriculture would be extended to cope with the proposed arrangements. A sum of Rs. 100,000 was appropriated by Government from the Development Fund to provide the necessary buildings, equipment &c.

As the outcome of a report by the Director of Agriculture proposals for the establishment of a branch of the Department in Rodrigues were sanctioned. The scheme of development comprises the organisation of an experiment station, inauguration of a definite land settlement scheme combined with co-operative credit developments and the fostering of agricultural industries along the usual lines.

Wages and Cost of Living

Wages

Agricultural Labourers.—Labourers under contract : average rate per month per adult Rs. 10 with rations, free lodging and medical attendance ; in all equivalent to about Rs. 50 per month.

	Rs.
Day labourers	2.00–3.00 per day.
Female "	1.00–1.50 "

Remuneration for piece work according to locality and conditions.

Rates for piece work in 1920

	Rs.
Clearing land	150–400 per arpent.
Digging cane holes	50–100 "
Manuring	10– 20 "
Weeding	50– 80 "
Cutting cane	30– 50 "

Industrial Wages

	Rs.
Artisans (fitters, mechanics, carpenters, joiners, masons, smiths &c.) ...	600–2,000 per an.

Servants

	Rs.
Butlers, cooks, coachmen, gardeners ...	25–50 per m.
Chauffeurs	40–80 "

Salaries

	Rs.
Managers of Sugar Estates, Senior Government Servants &c. ...	10,000–15,000 per an.
Government, Bank and Commercial Clerks (Higher Grade)	6,000–10,000 "
Clerks and employés on Sugar Estates	3,000– 6,000 "
Junior Clerks and Employés ...	1,200– 3,000 "

Cost of Living

	Rs.	
Rents of houses	50.00–150.00	per month
Rice	30.00	per 100 k.
Flour	15– 20.00	,,
Butter	2.00– 3.00	per ½ kilo
Beef (average)	0.50	,,
Tea...	1.10– 1.75	,,
Bread	0.40	,,
Cheese ...	2.50	,,
Bacon	2.75	,,
Lard	1.00	,,
Milk	0.30	per litre
Eggs	0.15– 0.20	each

Vegetables and Fruits—Variable with season and locality. Expensive in general.

	Rs.	
Wine (ordinary)	0.80– 3.00	per litre
Spirits ,, ...	3.00– 7.00	,,
Cotton and Woollen Stuffs ...	10.00–20.00	per metre
Boots (imported)	20.00–40.00	per pair
Tobacco (Bourbon)	16.00	per ½ kilo
Cigarettes (ordinary)... ..	1.00– 2.00	per tin of 50
Medical fee, ...	3.00	per visit

Apothecary drugs—Variable, generally expensive.

Public Amusements

	Rs.
Cinema (Seats)	0.25–1.00
Play ,, ...	0.50–3.00
Concerts ,, ...	1.00–3.00

Estimated total No. of acres remaining ungranted or reacquired by Government.	Approximate acreage of the Colony	Remarks
	No. of Grants	No. of English acres	No. of Grants	No. of English acres			By Grant	By Sale				
Port Louis ...	1	0.16	...	...	1	0.16	...	Rs. 958.79	379,656¼	81,143¾	460,800	

NOTE.—Lands are granted by Government by leases and by sales. Lands which are situated on the sea coast beyond the limits of Port Louis known as Pas Geometriques cannot be sold and can only be leased by Public Auction except those forming part of villages which have been proclaimed as such. The sales are invariably made by Public Auction. There is, however, an exception to this rule in cases where lands are desired for charitable, religious or educational purposes or for public utility.

GAOLS AND PRISONERS

The Statistical Return only is printed this year. The replies to questions are the same as those given in the Blue Book for 1915 with the following alterations.

QUESTIONS :

I.—Rodrigues : Prisoner located on the separate system at night.

III.— do. : Two wards divided into 10 and 5 cells respectively.

IV.— do. : About 10 cubic feet.

IX.—(3) Escapes 1921 : Mauritius Prisons, 19 males ; Reformatory, nil.

X.—Costs 1921 Mauritius Prisons, Rs. 254,387.42 ; Reformatory and Industrial School, Rs. 30,721.86. Rodrigues Prison, Rs. 969.79.

XI.—Prisoners' earnings : Mauritius Prisons, Rs. 21,492.92 ; Reformatory and Industrial School, Rs. 5,817.34.

XII.—Rodrigues : Dormitories.— The cells are not lighted but are supervised by Police sentries through peep holes.

XIII.—Punishments : Mauritius Prisons, 4 floggings, 21 wearing chains, 4 solitary confinement in dark and light cells with bread and water diet, 65 forfeiture of remission marks, 285 solitary confinement in light cells with bread and water diet, 527 solitary confinement in light cells with bread and water diet and forfeiture of remission marks, 14 cautioned or admonished.

Reformatory and Industrial School, 2 cautioned, 2 caned on the breech, 2 caned on the breech and to wear partly coloured dress for 6 months, 2 loss of grade of monitor and breaking stone, 4 loss of grade of monitor and forfeiture of marks, 6 forfeiture of marks and breaking stones.

XX.—(2) Prevailing disease—Prisons : Malaria and Dysentery. Reformatory : Malaria.

I. What quantity of water is available for each patient every day?
  (a) What is the source of water supply?
  (b) What is the quality of water?
II. Detail the arrangements as to baths and lavatories.
III. What is the system of sewerage and what is the condition of the privies?

PORT LOUIS—*Civil Hospital*

I. Ad libitum for all purposes. (a) Municipal canal and Mare-aux-Vacoas. (b) Doubtful so far as the Municipal canal is concerned.
II. 3 bathrooms and 1 lavatory in yard, and 4 turrets containing altogether 24 W. C's and 8 bathrooms connected to the galleries or wards by covered passages.
III. Drainage system in connection with main underground drainage of Section III of Port Louis.

PORT LOUIS—*Prison Hospital*

I. Ad libitum. (a) The Municipal Canal and Mare-aux Vacoas. (b) Doubtful so far as the Municipal Canal is concerned.
II. One bathroom and 2 lavatories
III. Underground drainage system. Condition of water-closets good.

PAMPLEMOUSSES—*Long Mountain Hospital*

I. Unlimited. (a) Bassin Loulou. (b) Good.
II. Two bathrooms for males and one for females. All are provided with shower baths. No lavatories.
III. The Sewerage is well covered and made of reinforced concrete, having a small drain for letting in waste water. The privies contain tubs and are in good condition.

RIVIÈRE DU REMPART—*Poudre d'Or Hospital*

I. Quantity unlimited. (a) Water is obtained from a spring in the neighbourhood and is conveyed to the Hospital in cast iron pipes. (b) Good but liable to pollution after heavy rains.
II. Three bathrooms with shower baths, two for men and one for women.
III. Open gutters discharging into the sea for escape of rain, refuse and waste waters. The privies are situated close to the hospital. The night soil service is effected by the dry earth system, by means of tubs removed thrice weekly; separate privies for patients suffering from contagious diseases.

FLACQ

I. Unlimited quantity. (a) Rivière Dubois. (b) Pure.
II. Two bathrooms for males and two for females. They are provided with slipper baths and the water is conveyed thereto by means of pipes.
III. The privies are furnished with tubs (dry earth system) which are removed daily after disinfection. Surface drainage.

GRAND PORT—*Mahebourg Hospital*

I. Unlimited quantity. (a) From Bé-Vavangue, Bé-Manique, Nouvelle France and Cascade, conveyed in iron pipes. (b) Fair, boiled and filtered before use.
II. The bathrooms of Wards 1, 2 and 4 are close to the wards. They are provided with large concrete basins, profuse water supply and shower baths. The female ward is provided with a convenient lavatory.
III. The night soil service is on the dry earth system; tubs and urinals are removed daily. The rain and waste waters are carried away by surface drains. Condition of privies good, with satisfactory ventilation. †

* Ward B—Building demolished and under construction during the whole year.
† Demolished

QUESTION II.—*Continued.*

SAVANNE.—*Souillac Hospital*

I. In profusion. (*a*) La Savanne River. (*b*) Suspicious.
II. Ordinary bathrooms with shower bath.
II. Dry earth system by means of tubs.

PLAINES WILHEMS.—*New Central Prisons, Beau Bassin*

I. The quantity is unlimited. (*a*) Mare-aux-Vacoas. (*b*) Good.
II. No lavatory, one bathroom with shower bath attached to each ward.
III. Dry earth system, privies well aired and in good condition.

PLAINES WILHEMS.—*Barkly Asylum, Beau Bassin*

I. Ad libitum. (*a*) Mare-aux-Vacoas (*b*) Generally good, except occasionally during the dry season, when it is not so satisfactory.
II. Bathrooms are contiguous to the wards. There are no bathrooms to wards B and C, and the patients of these two wards use the bathroom of ward D.
III. Rain and waste waters are disposed of by means of small open drains. Tubs and urinals are removed regularly every morning by prisoners.

Beau Bassin Prisons

I. Unlimited quantity. (*a*) Mare-aux-Vacoas. (*b*) Good.
II. No lavatory. A bathroom and shower.
III. Tub system with disinfectants and removal by pipes to septic tank.

Government Reformatory, Rose Hill

I. Ad libitum. (*a*) Mare-aux-Vacoas filtered water only
II. There is a large covered shower bath in the yard in which baths are taken. Clothes are washed in a lavatory fitted with taps.
III The latrine service is on the dry earth system, tubs and urinals are removed daily. The condition of the privies is satisfactory (fly proof). The rain and waste waters are carried away by surface drains.

MOKA

I. Ad libitum. (*a*) Mare-aux-Vacoas. (*b*) Good.
II. One bathroom. No lavatories.
III. Refuse and waste waters are removed by an open drain to two absorption pits. Water carriage system discharging into septic tanks by means of underground earthenware pipes and finally into absorption pits. Privies in good condition. Drainage of yard effected by means of superficial drains.

QUESTION III

Give the number of visits of inspection paid to the Hospitals during 1921.

Specifying the character of the visit ? in respect to Notice	And stating the official position of the Visitors		
	By the Governor or Colonial Secretary	By a Government Inspector	By a Committee of the Governing Body*

*The Hospitals are visited from time to time by Auditors and by Boards of Survey.

I. In reference to the preceding Table state whether or not the Registers and Books were produced on every occasion; and, if not, on how many occasions they were not so produced.

II. And if on any occasion when they were examined, they were found not to be properly made up to date examined.

III. State also how many reports of the following kinds have come under the notice of the Governor:

(a) Reports of a financial or statistical kind especially such as show the system on which money and stores are kept and audited.

(b) Reports by persons charged with the immediate management of the Hospital.

(c) Reports by a Government Inspector independent of the Governing Authority of the Hospital.

PORT LOUIS

I. Yes, on request.
II. Yes, up to date.
III. (a), (b) and (c) None.
I. & II Nil
III. (a), (b) and (c) None.

PAMPLEMOUSSES.

I & II. Not applied for.
III. (a), (b) and (c) None

RIVIÈRE DU REMPART.

I. Yes.
II. Yes, up to date.
III. (a), (b) and (c) None.

FLACQ

I. Books produced on every occasion.
II. Examined and found up to date.
III. (a), (b) and (c) None.

GRAND PORT.

I. & II. Produced on every occasion and found up to date.
III. (a), (b) and (c) None.

SAVANNE.

I & II. Not applied for.
III. (a), (b) and (c) None.

PLAINES WILHEMS.

New Central Prisons, Beau Bassin
I. Yes, produced when asked for.
II. Yes, found properly kept and up to date.
III. (a), (b) and (c) None.
Barkly Asylum, Beau Bassin
I. & II. Produced and found up to date.
III. (a), (b) and (c) None.
Government Reformatory, Rose Hill
I. Produced on each visit.
II. Yes, to date
III. (a), (b) and (c) None.

MOKA.

I. Yes, produced when asked for.
II. Yes, up to date.
III. (a), (b) and (c) Nil.

(a) Including Superintendent, Steward, Matron and 3 nurses.
(b) Gatekeeper.
(c) Dispenser and Storekeeper, 6 warders, 39 male servants (including 10 night guardians) and 18 female servants, (including 6 night guardians).
(d) 1 Clerk to Superintendent's and Central Board's Office, 4 cooks, 1 storeman, 1 tinsmith, 2 night guardians in the gardens, 2 washerwomen and 1 female servant to Matron's quarters.

QUESTION I.—(*Continued*)

Space and Accommodation Table

Description of Rooms	The Number of such Rooms	Height of Rooms	The Gross Cubic Space of all such Rooms	The Gross Superficial Area of all such Rooms	Amount of Superficial space allowed for patient	Average Temperature Winter	Average Temperature Summer	The Amount of Window Space
		feet ins.	cubic feet	square feet	square feet	morning	morning	
Debentures	9	8—10.4 1—16	213,120	19,440	58.3	67°.5 F.	77°.3 F.	160 windows (6.4 ft. × 3.9 ft) Total area 3760 sq. feet
						evening	evening	
Day Rooms and Corridors used as Day Rooms ...	2	10— 4	33,281	3,235	10.5	72°.7 F.	80°.5 F.	
Single Rooms ..	49	34—12.7 9—14.4 6 – 9.9	71,078	8,182	166.	...	...	92 windows Total area 1545 sq. feet

Water Supply

What is the source of the Water Supply; the Quality of Water; and the amount of Water available for all purposes—express in gallons per patient per day.	Supplied in Iron pipes :— 1.—*Plaines Wilkems Canal.*—Quality indifferent, supply irregular during the dry season, made use of for watering purposes and for washing clothes. 2.—*Mare-aux-Vacoas Water.*—Quality generally good in the rainy season, made use of for drinking, cooking and bathing purposes. Quality generally good especially in the rainy season. 3.—Ad libitum.

Lavatories

(a) Number of Lavatories?	(a) Eleven (11).
(b) And proportion of the total number of basins in them all to the total number of patients?	(b) The lavatories at the Asylum are for washing the clothes and utensils of the patients. There are no lavatories with basins for the use of the patients.

Baths

(a) Number of baths?	(a) 8 shower baths, 4 hip baths, 15 large open and 2 slate baths.
(b) Proportion of total number of baths to total number of patients?	(b) One for every sixteen patients.
(c) How often are the patients bathed?	(c) Once or twice daily.
(d) How much water is allowed for each bath?	(d) Ad libitum.
(e) Whether fresh water is given to every patient? (f) Whether the supply of hot water is adequate?	(e) (f) Usually fresh water is used; but in case of illness warm water if ordered by Medical Superintendent. The supply of hot water is adequate.
(g) Whether a responsible official or Attendant is always present during the bathing operations?	(g) The Warder or Nurse in charge of the cells, where new admissions are generally sent, supervises the bathing operations. In wards and in private quarters bathing is under the control of the Warder or Matron in charge of Day Room and of the servants.
(h) Whether he reports, in writing, to the Superintendent of the Institution as to the existence of any bruises, eruptions, deformations or other peculiarities he observes when patients are stripped.	(h) In case of the existence of any bruises, eruptions &c., the Warders, or Servants call the attention of the Steward or Dispenser on their visits; and this is reported to the Medical Superintendent afterwards.

Latrines

(a) What is the number of Latrines?	(a) Seventeen latrines containing 30 tubs.
(b) What is total number of seats to the total number of patients?	(b) One seat for every sixteen patients.
What is the system of Sewerage?	Septic tank system.

QUESTION II.—(MANAGEMENT)

Physical Examination of Patients

Whether a physical examination of the patient is made by a Medical Practitioner immediately on admission?	Yes, by the Medical Superintendent.

QUESTION II.—(*Continued*)

Restraint

SECLUSION

Seclusion is the enforced isolation of a patient by day between the hours of 7 A.M. and 7 P.M. by the closing of any means whatsoever of the door of the room in which the patient is. Patients are secluded in cases of temporary excitement and violence.

	Males	Females	Total
(a) Number of Persons subjected to Seclusion	25	23	48
(b) Total number of occasions seclusion has been resorted to...	52	25	77

	Hours
(c) Total number of hours seclusion has been employed in all cases combined	3,462
(d) Longest period during which seclusion has been employed without intermittence in any one instance	8

By whose authority Patients are secluded? — By the Superintendent or in his absence by the Steward and by the Dispenser.

Mechanical Restraint

	Males	Females	Total
(a) Number of Persons subjected to Mechanical Restraint	8	15	23
(b) Total number of occasions mechanical restraint has been resorted to ...	18	20	38

	Hours
(c) Total number of hours mechanical restraint has been employed in all cases combined ...	6,273
(d) Longest period during which mechanical restraint has been employed without intermittence in any one instance	12

(I) By whose authority Patients are restrained? — The Superintendent or in his absence the Steward and Dispenser.

(II) What methods of mechanical restraint are in use? — Strong canvas dresses only employed to prevent patients from destroying their clothes. The hands attached to their strong dresses when there is much violence or attempt at suicide, also straps to both hands in case of temporary excitement.

Casualties

Cases of roughness or unkindness by Attendants to Patients.	Nil
Number of cases of injury to patients.	
(a) By themselves.	49
(b) By other patients.	Nil

Occupation and Recreation

AIRING COURTS

There are only two Airing Courts at the Asylum: one for Males, another for Females.

Extent of :—	Acres.	R.	P.	
(I) The airing courts	9	3	21	Belonging to the Asylum.
(II) And other grounds	18	2	4	

Are the patients, as a rule, given daily exercise, their health permitting?	Yes.
Are they confined to airing courts, or allowed to walk in other grounds, and sent beyond the Asylum?	During the year under review the patients were confined to the airing grounds.
Particulars of the various means available for amusement and recreation.	Male patients have games of dominoes and draughts and female patients a piano to amuse themselves. The Institution is provided with a magic lantern, a cinematograh, a gramophone and a phonograph. The female patients were occasionally entertained by lady visitors with music songs and dances. One cinematograph and gramophone performance was held in 1921 and the patients were given a treat of cakes, fruits and lemonade on that occasion.
Whether any special Recreation Room is provided.	No special Recreation Room is provided for the patients.

DAILY AVERAGE NUMBER OF PATIENTS WHO WERE EMPLOYED IN 1921

Distinguishing the Sexes	Specifying the character of the employment			
	Agriculture and Gardening	Trade	Household Work, Drawing Water, &c.	
Male	33.56	46.60		38.19
Female	...	...	Wards	32.20
			Washing	20.9
			Sewing	26.06

Religious Services

1. What particular denominational services are provided?	1. No religious services are held at the Asylum.
2. By whom are the services taken?	2. Catholics and Protestants are however visited by the Ministers of their Religion.
3. What is the average attendance at the services of each denomination?	3. Nil.

QUESTION III.—(DIET)

Diet Scale at the Lunatic Asylum

	First Class		Second Class		Extras	Remarks
	Normal	Sick	Normal	Sick		
	grammes	grammes	grammes	grammes		
Beef	225	225	...	225	Fowls: 340 grammes.	Second Class *Normal Diet*
Bread	450	340	225	340	Eggs	
					Beeftea or Essence of Beef	(*a*)
Butter ...	30	- ...	10	...	...	Milk days: 3 times a week
Fresh Fish ...	225	...	225	...	Rum	
Milk	25 centilitres	1 litre	centilitres (*a*) 75 + 13 (*b*)	1 litre	Arrowroot and Sugar (50 grams. each)	(*b*) Fish days: 4 times a week
					Bread not to exceed 450 grams.	
Dholl ...	...	...	60 grammes	...		
Potherbs ..	110 grammes	..	110	...	Pontac Wine	
Rice	...	...	225	225 grammes	Milk

Sugar	45	45 grammes	23	23		
Tea	8	8	4	4		
Green Brèdes...	...	...	120	...		

(*a*) On Milk days. (*b*) On Fish days.

QUESTION IV.—(INSPECTION)

Divide the Patients in the Asylum into the following Classes.

	Males	Females	Total
I. Idiots and Imbeciles of whom are epileptics ...	20	15	35
II. Presumably recoverable	78	76	154
III. Chronic and Presumably Irrecoverable of whom are:			
(i) Turbulent and dangerous ...	42	53	95
(ii) Suicidal	15	16	31
(iii) Sick and infirm	1	1	2
(iv) General Paralytics	...	...	...
(v) Epileptics	15	20	35
(vi) Senile Dements	30	24	54
(vii) Quiet and able bodied	45	35	80
Total ...	246	240	486

Give the number of Visits of Inspection paid to the Asylum in 1921

Distinguishing those Visits in which all Patients were seen and every part of the building visited from Visits of Partial Inspections	And stating the Official Position of the Visitors							
	By the Governor or Colonial Secretary		By Acting Director Medical and Health Department		By a Committee of the Governing Body		By an Inspector specially charged to ascertain the continued Lunacy or otherwise of the Patients	
	By Appointment	Of Surprise	By Appointment	Of Surprise	By Appointment	Of Surprise	By Appointment	Of Surprise
(1) Complete Inspections	...	...	12	2	12	...	...	...
(2) Partial Inspections	...	...	...	...	...	...	...	...

State how many Reports of the following kinds have come under the notice of the Governor:

(I) Financial and Statistical (showing, amongst other things, on what system the Money and Store Accounts are kept and audited.)	Nil
(II) Reports by the Person or Persons charged with the immediate management of the Asylum.	Nil
(III) Reports by an Official Inspector, independent of the Governing Body of the Asylum.	Nil

RESULTS OF THE MAGNETICAL AND METEOROLOGICAL OBSERVATIONS
Taken at the Royal Alfred Observatory, Mauritius, Latitude 20° 5′ 39″ S; Longtitude 3^h 50^m, 12.6 S.E.

(*Standard time* 4 *h. fast on Greenwich*)

The Observatory is about 8 miles from the west coast of the Island and stands on a plain which is about 179 English feet above mean sea level. It is about 5 miles by rail from Port Louis.

The institution is fully equipped as a first class Meteorological and Seismological station.

As an Astronomical station, it possesses a 6 inch equatorial, a photoheliograph, 2 transit telescopes and several minor instruments.

The mean values of the Magnetic elements at the Observatory for the year 1921 were as follows :

Declination	West ...	10°. 30′. 48″
Dip	South ...	52°. 37′. 7″
Horizontal Force...	C.G.S. units ...	.23061
Vertical Force	C.G.S. units ...	.30185
Total Force	C.G.S. units ...	.37985

Daily observations of rainfall were received from about 150 stations in the Colony. The annual rainfall (mean of 50 stations) for the Island was 2019.8 mm. (79.52 in.) compared with an average of 1941.3 mm. (76.43 in.)

The monthly and yearly Means and Extremes of the Meteorological Elements for the year 1921 are given in the table on next page.

MONTHLY and YEARLY MEANS and EXTREMES of the METEOROLOGICAL ELEMENTS for the YEAR 1921.
